**Portions of this document are deemed by the San Diego Police Department to be records of security procedures and are exempt from disclosure under the California Public Records Act (CPRA), Government Code Section 7923.600**

On January 27, 2023, the Department released Training Bulletin 23-01 regarding the new dashboards available to commands and all personnel. These dashboards compile various statistics from Crime Cases, Calls for Service, Arrests, Citations, Field Interviews, Traffic Accidents, Impounds, Traffic Concerns, and other data, to give a more real-time overview of the crime statistics and problem areas of the divisions. They also include how the community views the partnerships with the Department on a broad scale.

These new dashboards are meant to give command staff a better tool to utilize data-driven resource allocation for the deployment of patrol officers and to assist in pattern recognition for investigators.

**Effective immediately**, command staff members (sergeant and above) are required to view the dashboards monthly to deploy resources more effectively in patrol and to develop strategies to enhance investigative abilities.

If you have any issues with the dashboards, please contact the SDPD Helpdesk at **(Deleted – records of security)**

---

Please read at squad conferences and give a copy to all personnel.
