## Performance Management

### About Performance Management

The City's performance management efforts integrate strategic planning and performance monitoring with the budget decision-making process. The goal is to create a more strategically oriented organization that optimizes its operations to serve the City's residents most effectively and efficiently. The City's performance management efforts are designed to infuse accountability for performance into City services at every level of the organization, as well as improve communication throughout the City and support data-enabled decision-making. Performance management helps the City create and adhere to its goals and priorities while strategic planning enables the City to manage the resources necessary for achieving them.

### City Strategic Plan

The City Strategic Plan is a vital component of the City's performance management efforts. It defines the City's mission, vision, operating principles, priorities, and outcomes. These efforts help optimize operations to serve City residents, visitors, and communities in the most effective and efficient way possible.

The mission and vision statements articulate what the City's purpose is and what it strives to be. The operating principles form the foundation on which City employees perform work. Priority areas are broad topics of focus for the organization. Outcomes define the intended change in the lives of individuals, families, organizations, or communities to be accomplished through the implementation of the Strategic Plan.

The current City Strategic Plan has a five-year lifecycle, is designed to be evaluated annually, and will be comprehensively updated in Fiscal Year 2027. It provides the framework for City employees' activities and gives departments the foundation necessary to develop more detailed tactical plans.

City staff and residents can follow progress of the Strategic Plan as well as updates and key metrics on the City's Strategic Plan Dashboard ([performance.sandiego.gov](https://performance.sandiego.gov)).

### Tactical Equity Plans

Citywide department tactical plan updates in Calendar Years 2015 and 2016 resulted in new and modified key performance indicators (KPIs). All department tactical plans, and many department KPIs, were again updated in Calendar Year 2022 to better reflect the current City Strategic Plan and include an equity component.

The City of San Diego's Key Performance Indicator dashboard ([performance.sandiego.gov/budget](https://performance.sandiego.gov/budget)) visualizes performance measures (i.e., KPIs) and organizes them to align with the City Strategic Plan. The KPIs are both City-wide and department-level and are categorized by the City's Strategic Plan goals and objectives. The data encompasses actuals for the four preceding fiscal years, estimates for the current fiscal year, and overall goals. The current KPIs for each department can also be found in their respective budget page in Volume 2 of the Adopted Budget.
