

TransNet

Page Intentionally Left Blank

Description

In November 1987, San Diego County voters approved the enactment of the initial San Diego Transportation Improvement Program (TransNet) that resulted in a one-half cent increase to the local sales tax. The City's share of TransNet revenue is based on population and the number of local street and road miles maintained. Through a cooperative effort with the San Diego Association of Governments (SANDAG), the City of San Diego is able to manage the Fund so that the most pressing transportation problems are addressed in accordance with TransNet goals.

The purpose of TransNet is to fund essential transportation improvements that relieve traffic congestion, increase safety, and improve air quality. These improvements include performing repairs, restoring existing roadways, and constructing assets within the public right-of-way.

TransNet revenues are primarily allocated to the Transportation & Storm Water Department for transportation and drainage design, bridge earthquake restrainers, traffic engineering, and street maintenance services, in addition to the Capital Improvements Program (CIP) for the design and construction of projects that relieve traffic congestion and increase traffic safety. The Department of Finance and Transportation & Storm Water departments are reimbursed for administrative oversight of the Fund.
