Description: This project will provide infrastructure repair of essential building systems to create a more environmentally and financially sustainable facility, addressing necessary replacement of the existing HVAC system, energy management systems, inclusive access points, structure foundation, and repair of nonfunctioning essential building components. Additionally, a second floor will be added to the Performance Annex, which will include rehearsal space and staff office space. The existing first floor will be expanded to include box office, staff office space, storage space.

Justification: Built in 1998, the City Heights/Weingart Branch Library's Performance Annex is the only publicly accessible black box theatre and amphitheater in the Mid-City area and is also the only black box venue and theater that the City of San Diego owns and operates. The existing facility does not have adequate space for programming and also lacks ADA amenities.

Operating Budget Impact: This facility will require ongoing operational budget for non-personnel expenditures. Estimates for the operating budget impact will be developed when final square footage is determined.

Relationship to General and Community Plans: This project is consistent with the Mid-City Communities Plan and is in conformance with the City's General Plan.

Schedule: Design is anticipated to begin in Fiscal Year 2025 and be completed in Fiscal Year 2026. Construction is anticipated to begin in Fiscal Year 2027 and be completed in Fiscal Year 2028, contingent upon grant extension.

Summary of Project Changes: Total project cost has decreased by \$876,975 due to refined scope. The project schedule has been updated for Fiscal Year 2025.

Improvement Type:	Betterment		sbose@sandiego.gov

Description: This project provides for improvements to the Outdoor Early Learning Patio at the existing Linda Vista Branch Library. The improvements entail adding a meeting and crafts space; seating for friends, families and readers' and space for nature-based play and learning. Specifically, a new exit gate, concrete patio, concrete band, stucco wall, concrete steppers, decomposed granite paving, iron fence, sidewalk, shade canopies, concrete tabletop, lintel, steel edging and irrigation drainage pipes will be added to the existing patio. In addition, an existing wall will be demolished to make way for the improvements.

Justification: The existing Linda Vista Branch Library was built in 1942 and was expanded in 1951 and again in 1987, to its current size of approximately 10,000 square feet. The current library is the busiest in the City of San Diego for youth summer reading programs and "Do Your Homework at the Library" programs and as a result, has reached operational capacity and is unable to accommodate the needs of the growing community.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Linda Vista Community Plan and is in conformance with the City's General Plan.

Schedule: Preliminary Engineering is anticipated to begin in Fiscal Year 2024 and be completed in Fiscal Year 2025. Design is anticipated to be completed in Fiscal Year 2025. Construction is anticipated to begin in Fiscal Year 2026 and be completed in Fiscal Year 2027, contingent upon the receipt of anticipated funding.

Summary of Project Changes: This is a newly published project for Fiscal Year 2025.

Council District:	4	Priority Score:	86
Community Planning:	Mid-City: Eastern Area	Priority Category:	High
Project Status:	Continuing	Contact Information:	Gibson, William
Duration:	2022 - 2029		619-533-5401
Improvement Type:	New		wgibson@sandiego.gov

Description: This project provides for the design and construction of a new library of approximately 20,000 square feet and a new book sorting facility of approximately 10,000 square feet. The library building will consist of entry/community services, technology lab, reader service area, informal reading/special feature area, reference area, multipurpose room, community room, adult/young adult area, children's area, and staff support areas. The facility will also require a parking lot as well as building entrance and path of travel from nearby school and park areas. This project was converted from P20004 in Fiscal Year 2022.

Justification: The existing Oak Park Library is only 5,200 square feet and is insufficient to meet the needs of the growing community. The existing library is too small to provide adequate programming and informational services to the library system and the region, and could not support the technological and programmatic needs of the future. The proposed project will utilize a Community Based Competitive Design (CBCD) delivery method to reach the ultimate goal of expanding the Oak Park Branch Library to a new 20,000 square foot facility. Under the CBCD method, teams of designers and contractors will compete for public votes on their unique designs of the library. Designs will be based on community input and desires, including exterior looks and interior features and amenities.

Operating Budget Impact: Staff from the existing library will be used to support operations in the expanded facility. Ongoing operational budget for non-personnel expenditures will be needed for the book sorting facility and for the increased landscaping, janitorial services, and security needs.

Relationship to General and Community Plans: This project is consistent with the Eastern Area Community Plan and is in conformance with the City's General Plan.

Schedule: RFP solicitation began in Fiscal Year 2023 and is anticipated to be completed in Fiscal Year 2025. Design-build contract is anticipated to be awarded in Fiscal Year 2025. The design component of the design-build is anticipated to be completed in Fiscal Year 2026, with the construction component anticipated to be completed in Fiscal Year 2028.

Summary of Project Changes: \$20.0 million in State Grant funding was allocated to this project in Fiscal Year 2024 via City Council resolution. Total project cost increased by \$5.2 million due to increases in construction costs. The project description and operating budget impact have been updated for Fiscal Year 2025.
