The draft community plan proposes a mix of uses and residential densities to support transit-oriented development and urban design policies that address design transitions between new and existing buildings. A Program Environmental Impact Report (PEIR) (SCH # 2013121076) was prepared and circulated for public review. A Final PEIR along with the responses to comments has been completed and will be provided for review and consideration. Report No. PC-16-061

ITEM – 10: AMENDMENTS TO THE RESIDENTIAL-MULTIPLE DWELLING UNIT (RM) BASE ZONE HEIGHT LIMIT FOR PROPERTIES WITHIN THE PENINSULA COMMUNITY PLANNING AREA IN THE COASTAL HEIGHT LIMIT OVERLAY ZONE

City Council District: 2 Plan Area: Peninsula

Staff: Raynard Abalos

This is a request for a recommendation to the City Council regarding amendments to LDC Chapter 13, Article 1 and the local coastal program to reduce the maximum zoning height in RM base zones to 30 feet for property located within the Coastal Height Limit Overlay Zone for the Peninsula Community Plan Area. Maximum zoning height, which is the limit on structure height set by the City Council for base zones throughout the City, is

often confused with the 30 foot coastal height limit approved by voters as "Prop D" (effective December 7, 1972). The issue is that the maximum 30 foot building height in the Coastal Height Limit Overlay Zone requires calculation of structure height from finished grade, which allows the existing grade to be raised before the calculation of a building's height is measured for the coastal height limit. While Prop D allows for an applicant to raise the grade and then measure the structure height, the City does not allow for grade to be manipulated to achieve greater zoning height. By reducing the zoning height limit for properties that are in the RM-2, RM-3, RM-4, and RM-5 zones within the Peninsula Community Plan Area and in the Coastal Height Limit Overlay Zone, the City can bring the base zone height limit in line with the public expectation that new development will not exceed 30 feet in these areas. The proposed amendments would not require a new environmental document. The previous EIR (LDC EIR 96-0333) adequately cover the proposed amendments to the LDC and local coastal program. Report No. PC-16-080
