

Welcome to Creative City, San Diego.

We are all creatives, expressing the vitality of our city in unique art, ideas and industry.

The City of San Diego is launching a cultural planning process to capture the power of our diverse art and culture as a fresh force for creative life, vitality and economy.

Take your place in this important project. Creative City uplifts the arts and engages the world from our unique point of view, where diverse ideas and expressions create meaningful experiences for everyone.
