**Suspicious Death in Colina Del Sol Neighborhood Not a Homicide**

**San Diego** – On May 25, 2020, at 6:30 a.m., the San Diego Police Department Communication Center received a radio call to investigate a body found at an apartment complex located at 4200 52<sup>nd</sup> Street. A resident returning from a walk found a young male with obvious injuries to his body in the front portion of the complex.

San Diego Police Officers responded and arrived a few minutes later. Officers found a dark skinned male, possibly Hispanic, who appears to be 16–20 years of age, deceased with apparent trauma to his body.

The victim's death appeared to be suspicious, possibly a suicide. Out of an abundance of caution, the San Diego Police Homicide Unit was called to scene. In conjunction with the County Medical Examiner's Office, the death was determined to not be a homicide. There will be no further investigation by the Police Department on this case. Any additional follow-up will be conducted by the Medical Examiner's Office.

The victim's identity will not be released, but he is an 18 year-old Hispanic male.
