

RESOLUTION NUMBER R- _____

DATE OF FINAL PASSAGE _____

A RESOLUTION OF THE COUNCIL OF THE CITY OF SAN DIEGO ADOPTING A NEW CITYWIDE PARK DEVELOPMENT IMPACT FEE.

WHEREAS, the City Council has reviewed and considered the methodology set forth in the Citywide Park Development Impact Fee Nexus Study, on file in the Office of the City Clerk as Document No. RR- _____ (Nexus Study); and

WHEREAS, Resolution No. _____ adopted the Parks Master Plan, and was considered along with this Resolution; and

WHEREAS, fees within the City vary greatly between communities, and a new Citywide Park Development Impact Fee (DIF) would provide a simplified fee to fund the City's parks system to meet the demand for parks resulting from new development; and

WHEREAS, the Parks Master Plan identifies the need for a Citywide Park DIF; and

WHEREAS, the Citywide Park DIF will be used solely to fund parks and recreation facilities throughout the City; and

WHEREAS, a Citywide Park DIF will allow the City to deliver more parks to more people throughout the City much sooner, with investments that improve the entire network of the City's parks system; and

WHEREAS, a Citywide Park DIF will allow greater community participation in the development and delivery of new, innovative, and community-desired park improvements in the City's communities; and

WHEREAS, development across the City of San Diego is not distributed equally across communities and historically, some communities have been afforded greater access to recreational opportunity than others over years of growth and development; and

WHEREAS, over the past 10 years, approximately 80 percent of DIF funds have been collected to be spent on parks in the northern areas of the City; and

WHEREAS, this disparity in funding has resulted in marked inequities that exist today in the City's parks system, with parks in the northern areas of the City tending to enjoy more quality park experiences, and areas in the southern portion of the City tending to experience few parks, with fewer amenities, programming, and reduced levels of safety, cleanliness, and enjoyability; and

WHEREAS, funding must be prioritized in the areas of the City with the greatest needs to begin to address the inequities in the City's parks system; and

WHEREAS, the City desires to continue to engage the community through continued public involvement and feedback to determine how funds received through the imposition of this fee should be expended; and

WHEREAS, all recreational assets constructed by the City using the new Citywide Park DIF or by a developer to satisfy a project's parks and recreation requirements onsite are currently and shall continue to be subject to the procedures set forth in Council Policy 600-33 to ensure public involvement and input in the General Development Plan process for parks; NOW, THEREFORE

17. That the Chief Financial Officer is authorized to distribute funds from the Citywide Park DIF in accordance with this Resolution, San Diego Municipal Code Chapter 14, Article 3, Division 10, and priorities identified in the Parks Master Plan. Specifically, for five years from the final passage of this Resolution, at least 80 percent of all Citywide Park DIF collected shall be prioritized for investments in park deficient communities, as determined by the Mayor, or his designee, with at least 50 percent of the total being prioritized for investments in Communities of Concern, as determined by the Mayor or his designee.

18. That the Nexus Study is incorporated by reference into this Resolution as support and justification for the satisfaction of findings required pursuant to the Mitigation Fee Act, as set forth in California Government Code section 66001, for the imposition of development impact fees. Specifically, it is determined and found that the Nexus Study:

- a. Identifies the purpose of the development impact fee, which is to fund park and recreational improvements needed to serve additional residential populations that result from new development in the City.
- b. Identifies the use to which the development impact fee is to be put, which is to fund park and recreation improvements throughout the City in a manner consistent with standards-based planning criteria set forth in the Parks Master Plan.
- c. Demonstrates how there is a reasonable relationship between the development impact fee use and the type of development on which the development impact fee is imposed. Future development will require

additional investments in park and recreational facilities to maintain defined Citywide park standards. As set forth in the Parks Master Plan, access to a wide variety of recreational resources throughout the City is key to a successful Citywide parks system. The fees would be used solely for this purpose; and

- d. Demonstrates how there is a reasonable relationship between the need for the public facility type and the type of development for which the development impact fee is imposed. Future development will require additional investments in park and recreational facilities to maintain defined Citywide park standards. As set forth in the Parks Master Plan, access to a wide variety of recreational resources throughout the City is key to a successful Citywide parks system. As new development will necessitate the need for park and recreation investments, the burdens posed are reasonably related to the use of the fee.
- e. Reasonable Apportionment. The reasonable relationship between the fee for a specific project and the cost of improvements attributable to the project is described in the Nexus Study and is consistent with the standards-based planning criteria set forth in the Parks Master Plan.

19. That at least 10 percent of the Citywide Park DIF shall be prioritized for acquisition of new park land.

20. That this Resolution shall be effective 60 days after the date of final passage of this Resolution, or on the effective date of Resolution No. _____, adopting the Parks Master Plan, whichever occurs later, and shall be in effect at the time building

permits are issued, in accordance with Municipal Code Chapter 14, Article 2, Division 6, plus automatic annual increases in accordance with San Diego Municipal Code section 142.0640(b), except that where the Citywide Park DIF would result in an increase from any other applicable park component of a DIF from July 1, 2021, such increases shall go into effect beginning July 1, 2022.
