

Redistricting Commission Basics

www.sandiego.gov/redistricting-commission

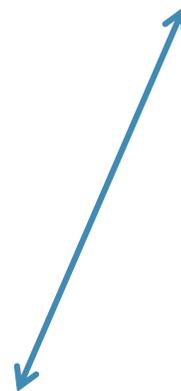

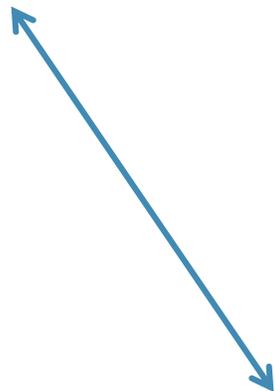

What does Redistricting entail for the City of San Diego?

Drawing new boundaries that determine which San Diegans are represented in each of the 9 Council Districts.

Representation

Census

Redistricting

Why Do We Redraw Council District Boundaries?

- ➔ Federal and state laws require district boundaries to be redrawn to reflect new population data. This takes place every 10 years based on the federal census data.
- ➔ Communities throughout the city change. Some residents move away, while others transfer to San Diego.
- ➔ To adjust for population densities so each Council district is approximately one-ninth of the total population of the City of San Diego.
- ➔ To ensure fair and equitable representation.

Meet the Commissioners

The Commissioners were appointed by the Appointing Authority, comprised of three retired judges of the San Diego Superior Court. The judges chose from over 100 applicants, with one representative from each of the nine Council districts.

District 9

Commission Responsibilities

- ➔ Promote community outreach and encourage public participation.
- ➔ Conduct Commission hearings that allow for public comment.
- ➔ Draft and finalize boundary maps for all 9 Council Districts.
- ➔ Promote a transparent and inclusive redistricting process.

City Charter Redistricting Parameters

The plan shall provide fair and effective representation for all San Diegans.

To the extent as practical, districts shall:

- ❖ Contain as nearly as practicable one-ninth of the total City of San Diego population.
- ❖ Preserve identifiable communities of interest.
- ❖ Be geographically compact and bounded by natural boundaries, street lines and/or City boundary lines.
- ❖ Be composed of contiguous territory with reasonable access between population centers in the district.
- ❖ Not be drawn up for the purpose of advantaging or protecting incumbents.

When will the Commission Receive the Census Data?

- The Census Bureau released “Legacy Format” data (a raw, not user-friendly format) for redistricting on August 12.
- A user-friendly version will be ready in late August, with the final, fully formatted data being released by mid September.
- Final maps must be submitted to the Registrar of Voters by December 15, 2021 in order to prepare for the June 2022 primary election.

We Want to Hear from You!

The Redistricting Commission meets virtually on the 3rd Thursday of the month at 3 p.m. In addition, 9 public hearings will take place each week in the months of August and September. Although these 9 community hearings will focus on a specific Council district, all residents are welcome to participate, regardless of where they live in the City of San Diego.

In order to help prepare residents in advance for the 9 meetings, the following community mapping materials are available on the Redistricting Commission website:

- SANDAG Population Table
- SANDAG Population Map
- Criteria for Redrawing the Lines
- Mapping Tool and Community Feedback link

Community Mapping Materials

6 Things to Consider When Redrawing the Lines

1 Equal Population

Each Council District should contain roughly 1/9 of the city's population.

2 Contiguity

Council Districts should be composed of contiguous territory.

3 Geographically Compact

Council Districts should be geographically compact so nearby areas of population aren't bypassed for more distant populations.

4 Communities of Interest

Council Districts should try to preserve communities who have similar legislative concerns who could therefore benefit from cohesive representation.

5 Reasonable Access

Council Districts should provide reasonable access between population centers.

6 Natural Boundaries

Council Districts should be bounded by natural boundaries, street lines and/or City boundary lines.

For more information about the City of San Diego Redistricting Commission, please go to www.sandiego.gov/redistricting-commission. If you have questions or need translation services, please email redistricting2020@sandiego.gov (3) three business days in advance.

District Deviations Based on 2020 'Legacy Format' Census Data (PRELIMINARY ANALYSIS)

The following table is based on the 2020 Census legacy format redistricting file released on August 12. Please note that the file download differed slightly from the official San Diego population total of 1,386,932 released by the Census. This will be rectified when the user-friendly format is released at the end of the month. The figures below are closer to the official total than the 2019 SANDAG estimate of 1,420,568, and broadly indicate the deviations likely.

San Diego City Council Districts - Demographic Information
NOTE: These are PRELIMINARY 2020 Census Population Counts
 Some Population data is not included. Figures will be updated in September

2020 Legacy Census Format - PRELIMINARY					
Total Population	Deviation	% Deviation	Pop. Change Since 2010 Census		
1	166,534	12,656	8.2%	18,853	12.8%
2	146,905	(6,973)	-4.5%	4,717	3.3%
3	161,843	7,965	5.2%	14,374	9.7%
4	144,895	(8,983)	-5.8%	2,119	1.5%
5	158,841	4,963	3.2%	14,472	10.0%
6	152,435	(1,443)	-0.9%	12,141	8.7%
7	159,168	5,290	3.4%	12,096	8.2%
8	148,991	(4,887)	-3.2%	4,136	2.9%
9	145,293	(8,585)	-5.6%	380	0.3%
Total	1,384,905			83,288	6.4%
Divided by 9		153,878			

Official 2020 Census total for City of San Diego: 1,386,932

To submit your feedback and to draw your ideal community boundary lines, please go to <https://bit.ly/Communitymapping>. To learn more about the City of San Diego Redistricting Commission, please visit www.sandiego.gov/redistricting-commission. If you have questions or need translation services, please email redistricting2020@sandiego.gov (3) three business days in advance.

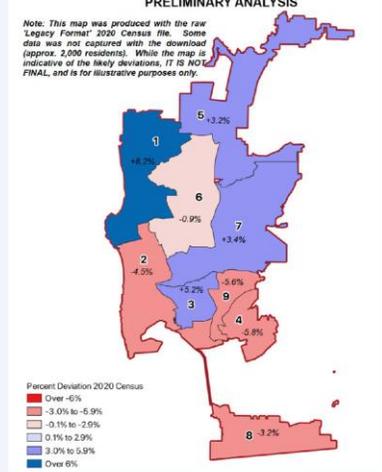

District Deviations Based on 2020 'Legacy Format' Census Data (PRELIMINARY ANALYSIS)

The following map is based on the 2020 Census legacy format data as described in the previous slide. This map simply provides a rough estimate of which districts *might* need to grow in size, and which *might* need to shrink in order to get closer to the ideal one-ninth size.

San Diego City Council Districts: Deviation from Ideal Size using 2020 Census Legacy Format Data - PRELIMINARY ANALYSIS

Note: This map was produced with the raw 'Legacy Format' 2020 Census file. Some data was not captured with the download (approx. 2,000 residents). While the map is indicative of the likely deviations, IT IS NOT FINAL, and is for illustrative purposes only.

Percent Deviation 2020 Census

- Over -6%
- -3.0% to -5.9%
- -1.1% to -2.9%
- 0.1% to 2.9%
- 3.0% to 5.9%
- Over 6%

How would you draw the new City Council districts? To submit your input and to draw your ideal community boundaries, please go to: <https://bit.ly/Communitymapping>. If you have questions or need translation services, please email redistricting2020@sandiego.gov (3) three business days in advance.

If you haven't done so already, please go to <https://bit.ly/Communitymapping> to submit your proposed map and community of interest feedback.

6 Things to Consider When Redrawing the Lines

1 Equal Population

Each Council District should contain roughly 1/9 of the city's population.

2 Contiguity

Council Districts should be composed of contiguous territory.

3 Geographically Compact

Council Districts should be geographically compact so nearby areas of population aren't bypassed for more distant populations.

4 Communities of Interest

Council Districts should try to preserve communities who have similar legislative concerns who could therefore benefit from cohesive representation.

5 Reasonable Access

Council Districts should provide reasonable access between population centers.

6 Natural Boundaries

Council Districts should be bounded by natural boundaries, street lines and/or City boundary lines.

District Deviations Based on 2019 SANDAG Population Estimates

The following table is based on the 2019 SANDAG population estimates not the 2020 Census data used for redistricting. This table shows the degree to which the 2019 estimated population for each City Council district deviates from the ideal size of one-ninth of the total city population. It also shows how the population in each district has changed since 2010.

2019 Estimate

Total Population		Deviation	% Deviation	Pop. Change Since 2010 Census	
1	170,684	12,843	8.1%	23,003	15.6%
2	162,748	4,907	3.1%	20,560	14.5%
3	196,412	38,571	24.4%	48,943	33.2%
4	132,029	(25,812)	-16.4%	(10,747)	-7.5%
5	159,205	1,364	0.9%	14,836	10.3%
6	149,622	(8,219)	-5.2%	9,328	6.6%
7	164,535	6,694	4.2%	17,463	11.9%
8	138,922	(18,919)	-12.0%	(5,933)	-4.1%
9	146,411	(11,430)	-7.2%	1,498	1.0%
Total	1,420,568				
<i>Divided by 9</i>	157,841

Community Mapping Tool

San Diego Community Engagement Survey

Thank you for helping the City of San Diego Redistricting Commission in its task to redraw the nine City Council districts.

A vital part of this mission involves hearing from you about your community. Speaking up about your community is critical to ensuring district lines are drawn to keep your community whole to the extent possible, and grouped with neighboring communities with similar interests. We invite you to draw your community with the tools below. Thank you for your input.

If you encounter a problem submitting your input, please email redistricting2020@sandiego.gov and provide a description of your problem.

Community Boundary Map

If you haven't done so already, please go to <https://bit.ly/Communitymapping> to submit your proposed map and community of interest feedback.

Public Feedback Needed Throughout the Process

After all 9 community hearings have taken place, the Redistricting Commission will draw preliminary maps of the 9 Council districts. Then, the Commission will host 5 additional community hearings in November and December to receive feedback on the preliminary maps.

November 2021						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30				

December 2021						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31
