

| Pure Water San Diego Program

Public Utilities Department

San Diego's Water Supply

85%

of our water is
imported...

San Diego
is downstream

We Face Numerous Water Challenges

 Limited local & imported supplies

 Population growth

 Bay Delta constraints

 Natural disaster risk

 Rising imported water costs

 Recurring drought

 Climate Change

Multi-faceted Approach

- Conservation
- Desalination
- Groundwater Development
- Recycled Water
- Pure Water Program

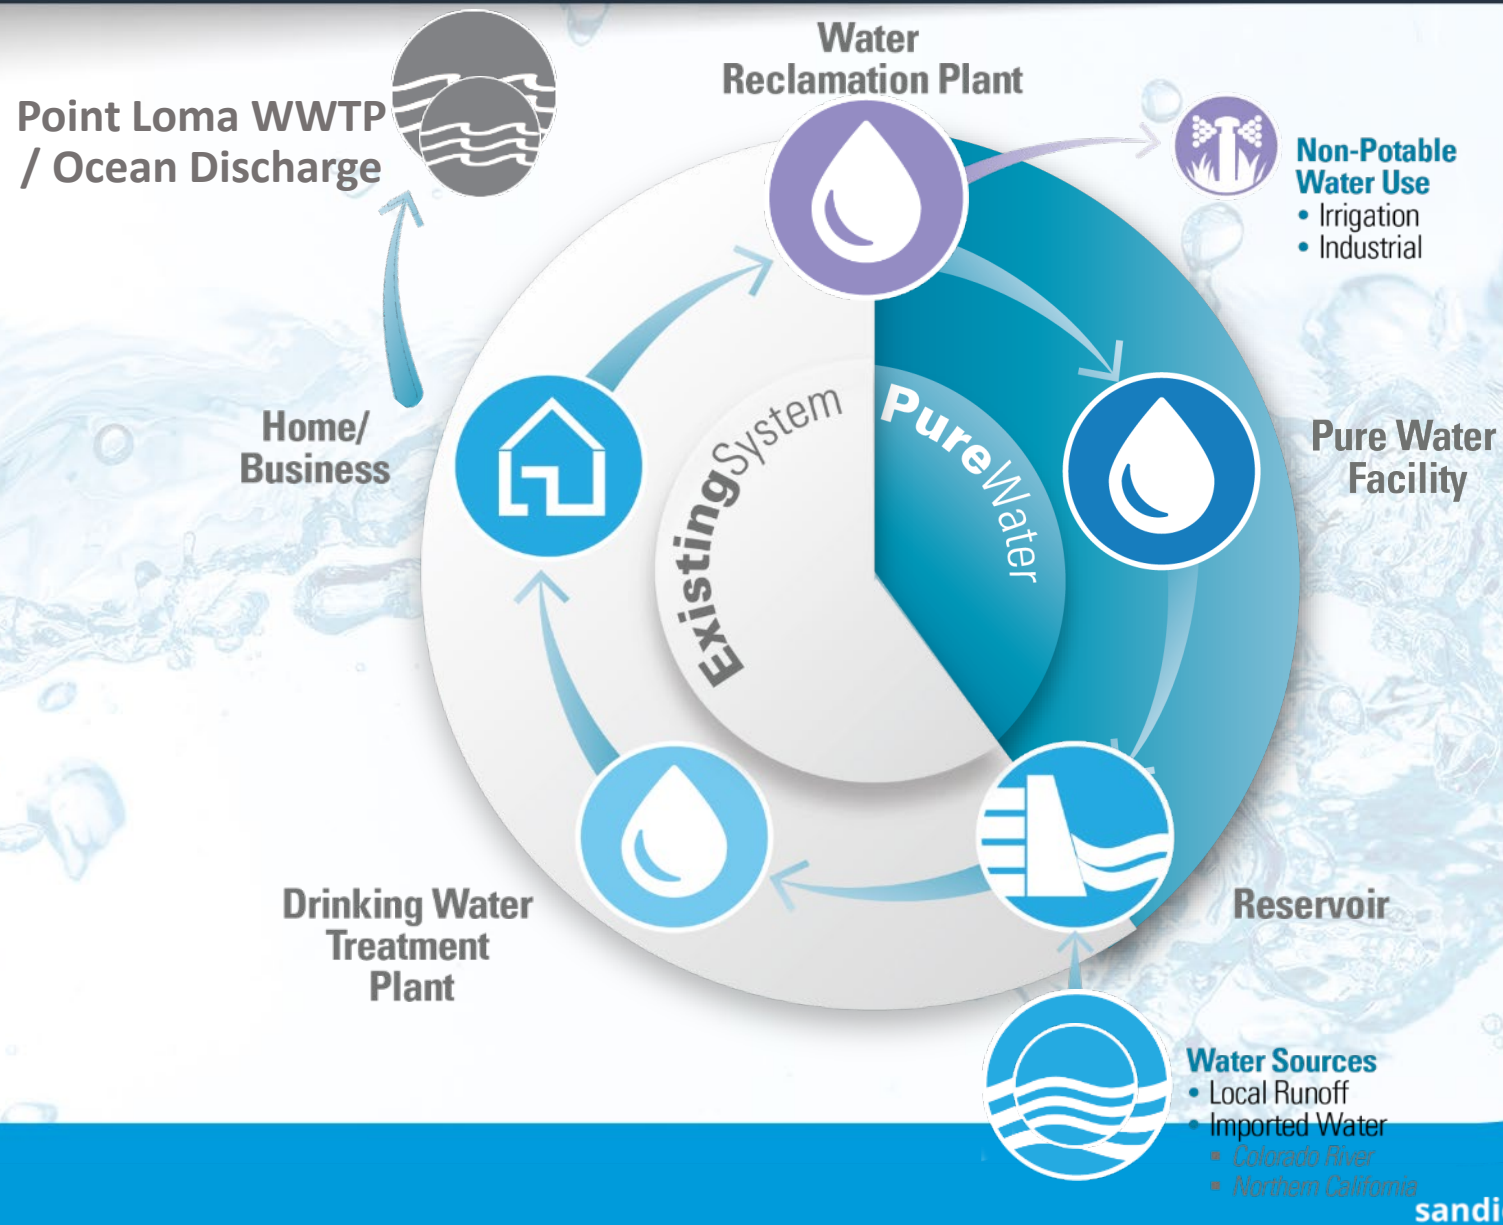

San Diego's Water Supply System

Existing System...

Primarily a Single-Use System

Pure Water...

Completes Our Water Cycle

Pure Water
will produce nearly

1/2

of your water
locally

Phase 2

- 53 mgd
- Central Area PWF to San Vicente or Lake Murray

Pure Water Runs a Successful Demonstration Facility

More than 50,000 lab tests:
Met all standards

Water quality:
Exceptional

Demonstration Facility Virtual Tour

SD Phase 1 Projects

Phase 2 Central Area Planning Update

Sustainability is Key

Pure Water provides the City with a safe, local, reliable and sustainable water supply.

Who Supports Pure Water?

The City of San Diego continues to provide safe, high quality drinking water for its customers each and every day.

@PureWaterSD

Back-Up Slides

Morena Pump Station

Lovelock Street

Morena Storage

Sherman Street

Morena Pump
Station
(future site)

Friars Road

Morena Boulevard

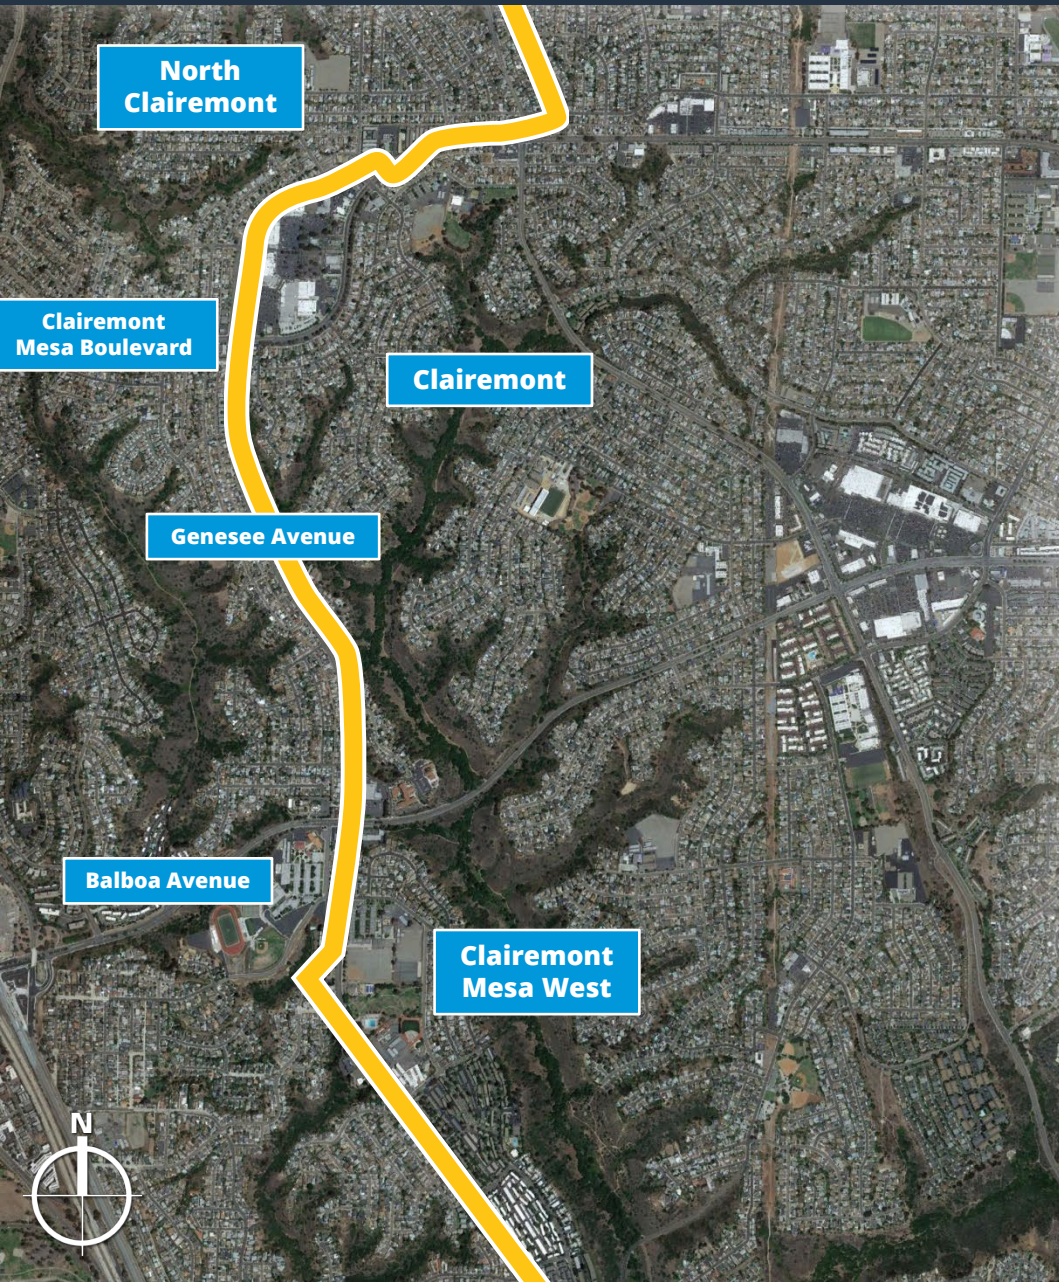

- Pump station will convey wastewater to the North City Water Reclamation Plant
- Supports Phase 1 recycled water and purified water production
- Includes work on Friars Road between Sea World Drive and Napa Street
- Construction is underway

Morena Southern/Middle Alignment

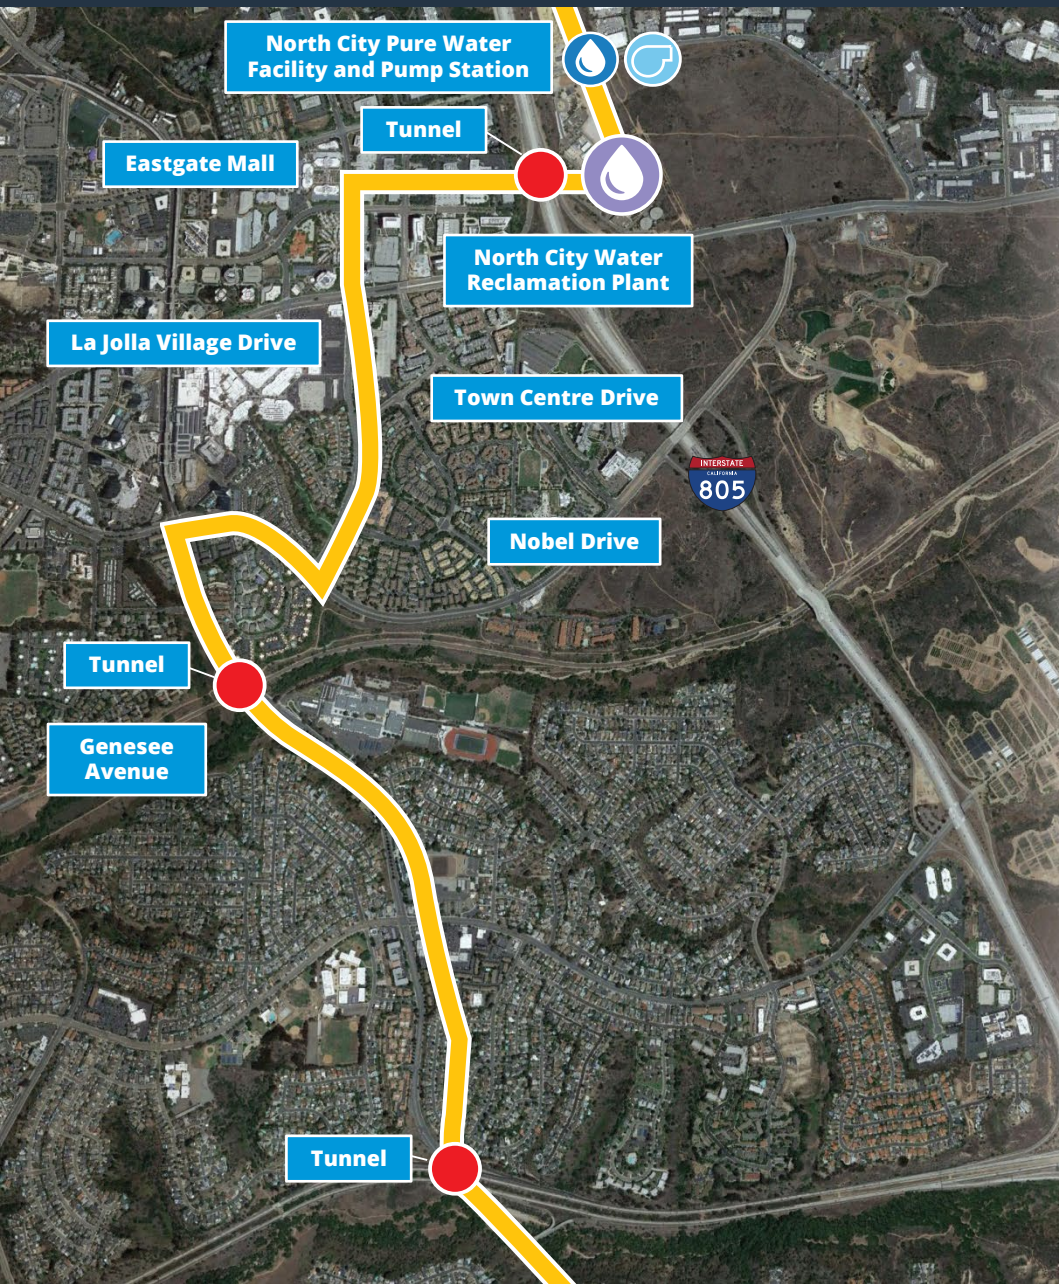

- Will connect the Morena Pump Station at Sherman and Custer Streets and the Morena Pipelines Middle Alignment at Clairemont Dr. and Iroquois Ave.
- Construction anticipated to start mid-2022

Morena Southern/Middle Alignment

- Will connect the Morena Pipelines Southern Alignment in Bay Park to the Morena Pipelines Northern Alignment and Tunnels in University City
- Construction anticipated to start mid-2022

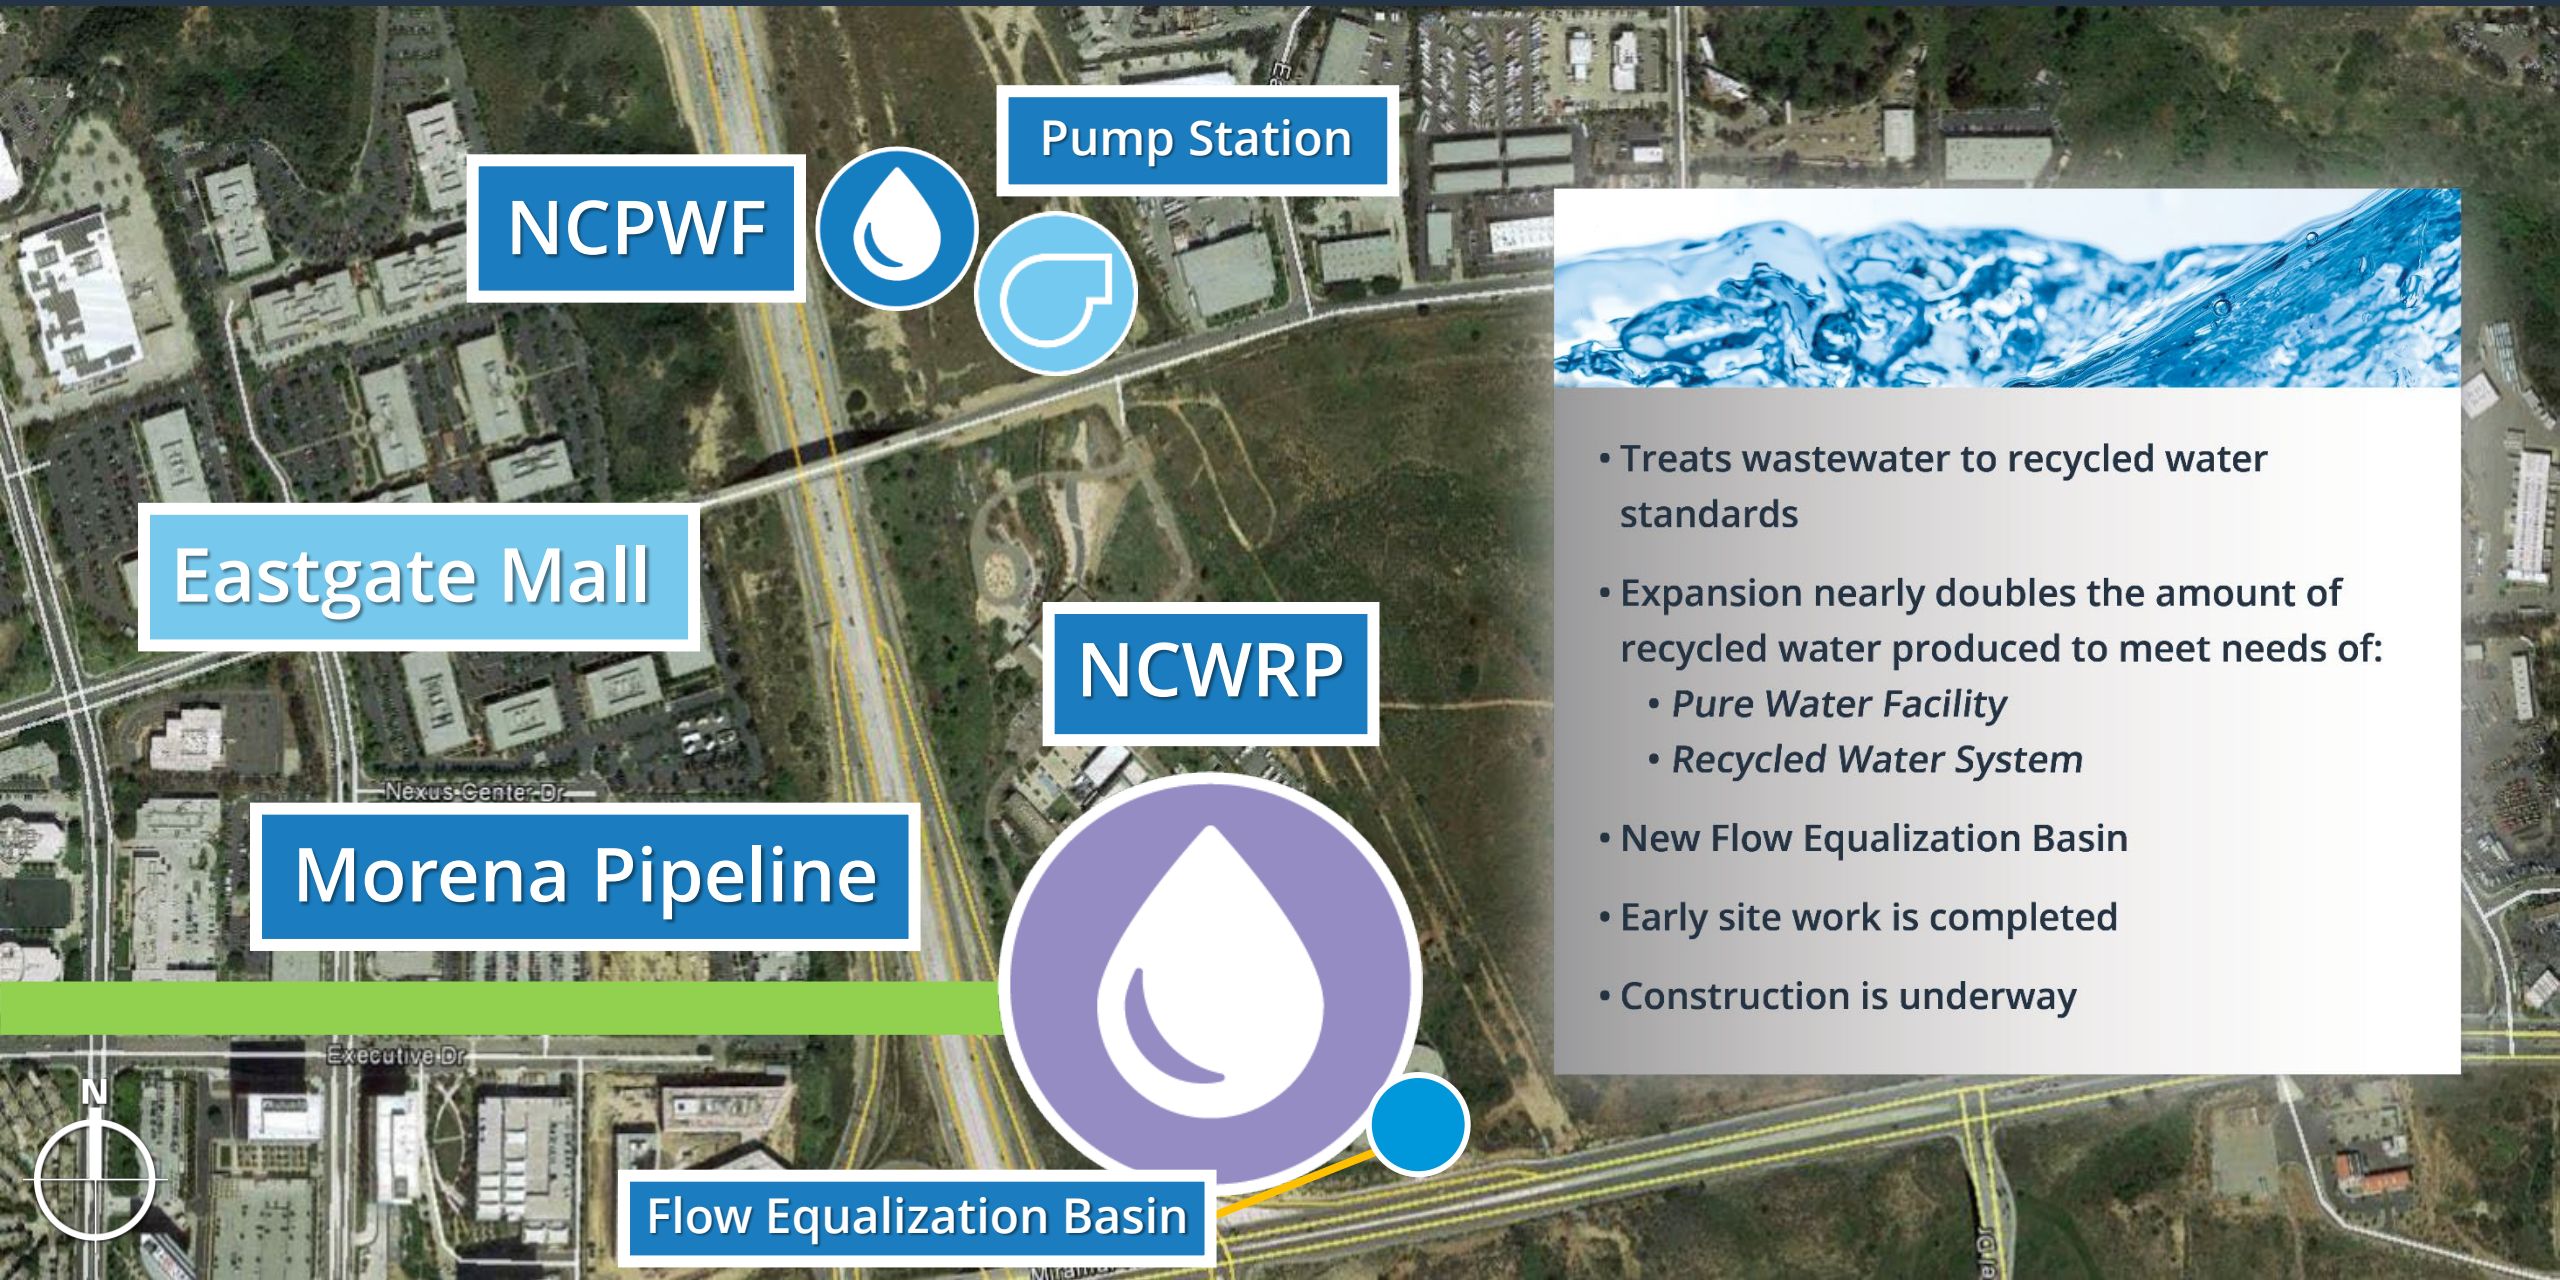

SD Morena Northern Alignment & Tunnels

- This project will connect to the Morena Pipelines Middle Alignment to the south and the North City Water Reclamation Plant to the north
- Begins on Genesee Ave. and Appleton St. and continues on Genesee Ave, Nobel Drive, Towne Centre Drive and Executive Drive
- Construction to start mid-2022

North City Water Reclamation Plant Expansion

NCPWF

Pump Station

Eastgate Mall

NCWRP

Morena Pipeline

Flow Equalization Basin

- Treats wastewater to recycled water standards
- Expansion nearly doubles the amount of recycled water produced to meet needs of:
 - *Pure Water Facility*
 - *Recycled Water System*
- New Flow Equalization Basin
- Early site work is completed
- Construction is underway

North City Pure Water Facility & Pump Station

NCPWF

Pump
Station

NCWRP

- Treats recycled water to produce 30 mgd of purified water
- Includes a proven 5-step advanced water purification treatment process
- A new pipeline will be built and will connect the NCWRP to the NCPWF
- New operations building and Discovery Center
- Construction is underway

North City Pure Water Facility

Ozonation

**Biological
Activated
Carbon
Filters**

**Membrane
Filtration**

**Reverse
Osmosis**

**Ultraviolet
Disinfection
/Advanced
Oxidation**

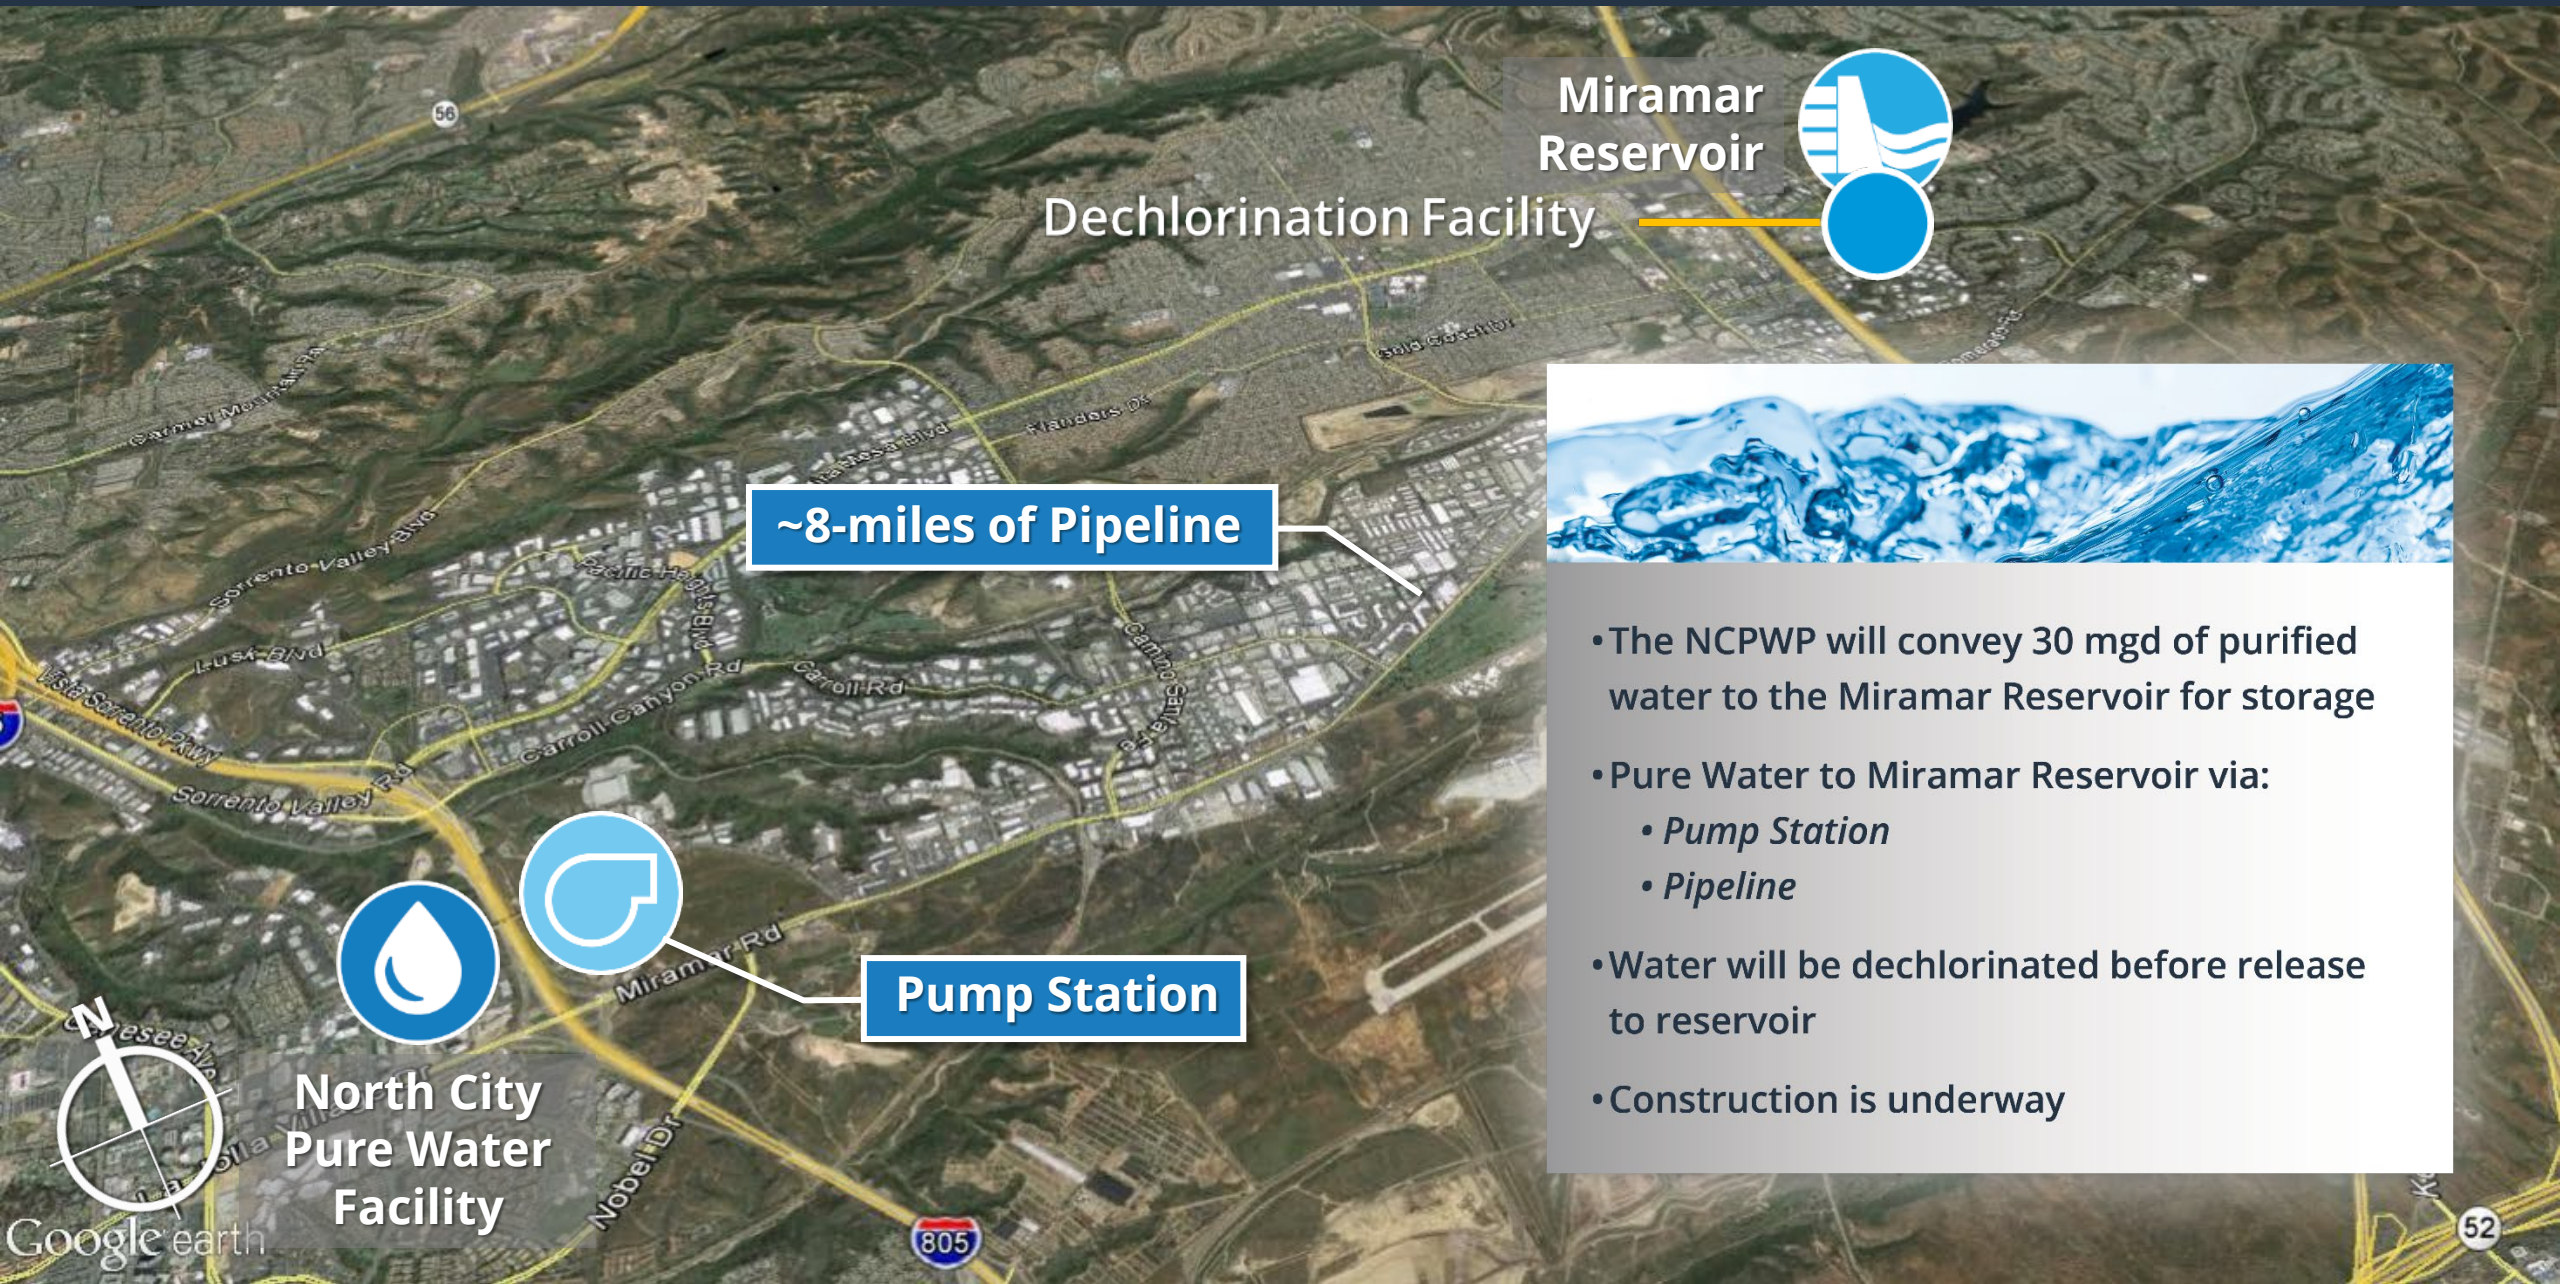

Metropolitan Biosolids Center

- Regional biosolids facility that receives and processes solids from both the North City Water Reclamation Plant (NCWRP) the Point Loma Wastewater Treatment Plant
- The NCWRP will undergo an expansion, upgrades and improvements, increasing biosolids flows and loadings to the Metropolitan Biosolids Center
- Construction is underway

North City Pure Water Pipeline

Miramar
Reservoir

Dechlorination Facility

~8-miles of Pipeline

Pump Station

North City
Pure Water
Facility

- The NCPWP will convey 30 mgd of purified water to the Miramar Reservoir for storage
- Pure Water to Miramar Reservoir via:
 - *Pump Station*
 - *Pipeline*
- Water will be dechlorinated before release to reservoir
- Construction is underway

SD Miramar Reservoir Pump Station Improvements

- The Miramar Reservoir Pump Station is being upgraded through the improvements project
- Upgrades include operational improvements associated with the treatment of purified water
- The purified water will be treated again at the Miramar Water Treatment Plant before distributed to the public

Subaqueous Pipeline

- The Miramar Reservoir Pump Station is being upgraded through the improvements project
- Upgrades include operational improvements associated with the treatment of purified water
- The purified water will be treated again at the Miramar Water Treatment Plant before distributed to the public
