

Pure Water San Diego Program

Pure Water Facility Tour

85%
of our water is
imported...

**San Diego
is downstream**

We Face Numerous Water Challenges

Imported water cost per acre-foot

- Limited local & imported supplies
- Population growth
- Bay Delta constraints

- Natural disaster risk
- Rising imported water costs
- Recurring drought

SD Multi-faceted Approach

■ Conservation

■ Desalination

■ Groundwater Development

■ Recycled Water

■ Pure Water Program

SD What is **Pure Water** San Diego?

Safe

Reliable

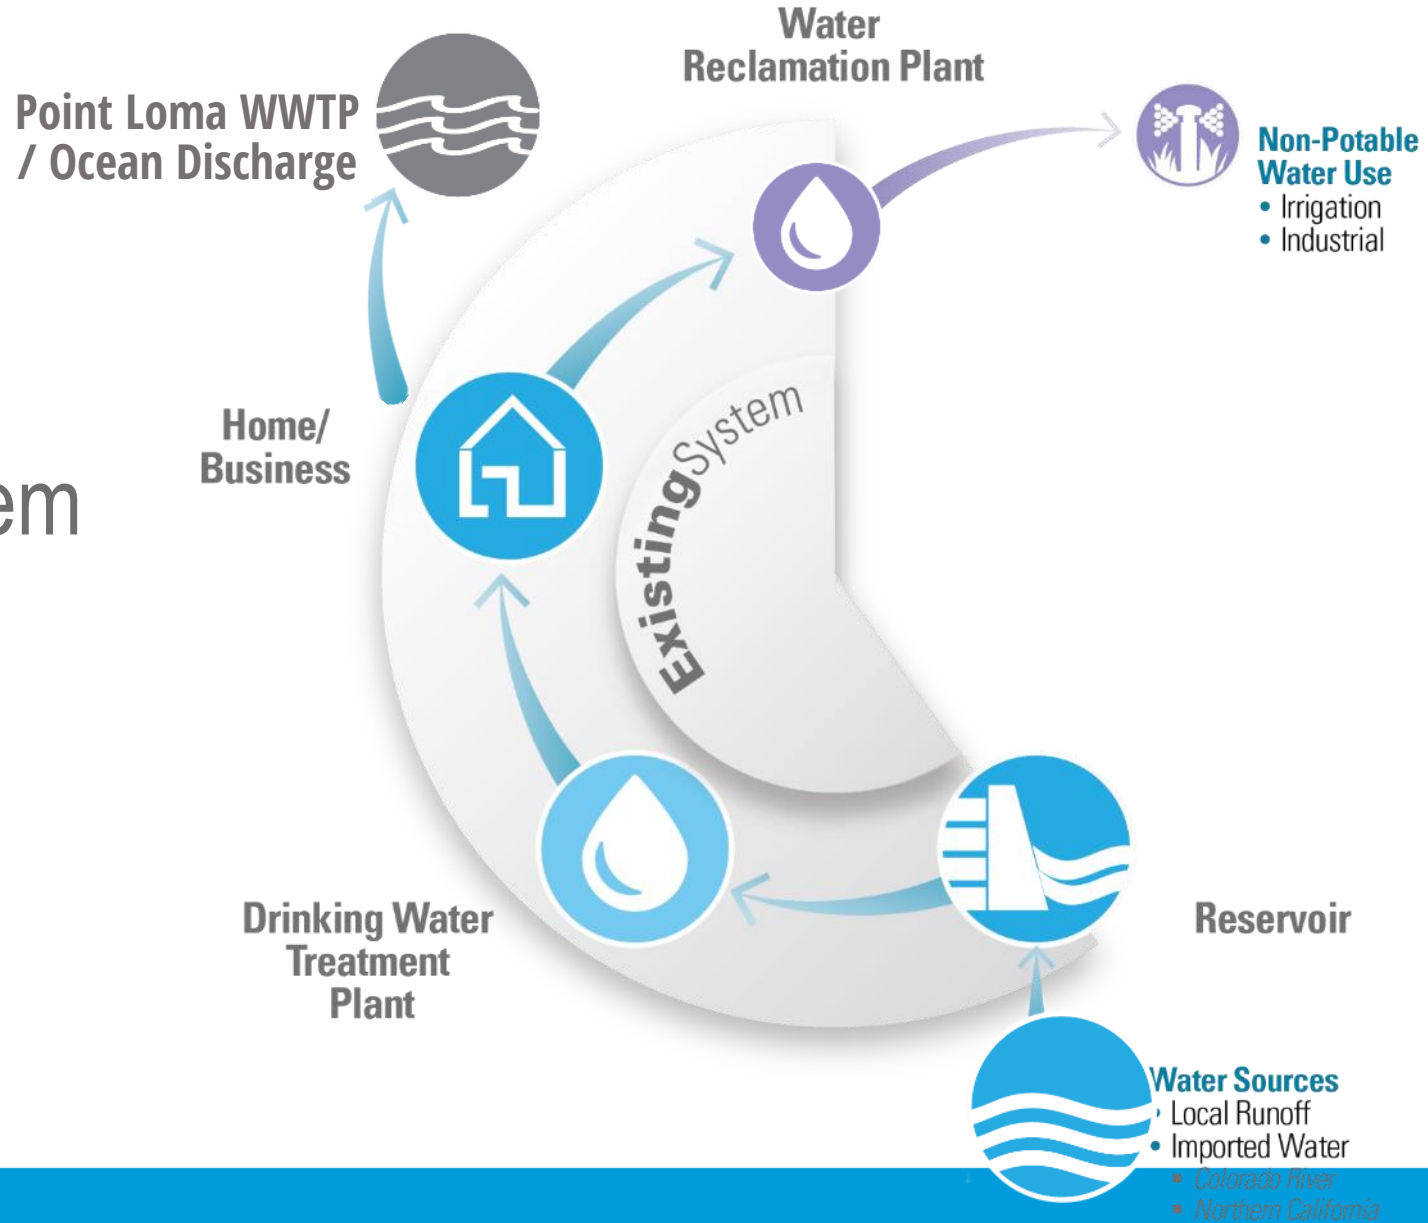

Cost-effective

SD San Diego's Water Supply System

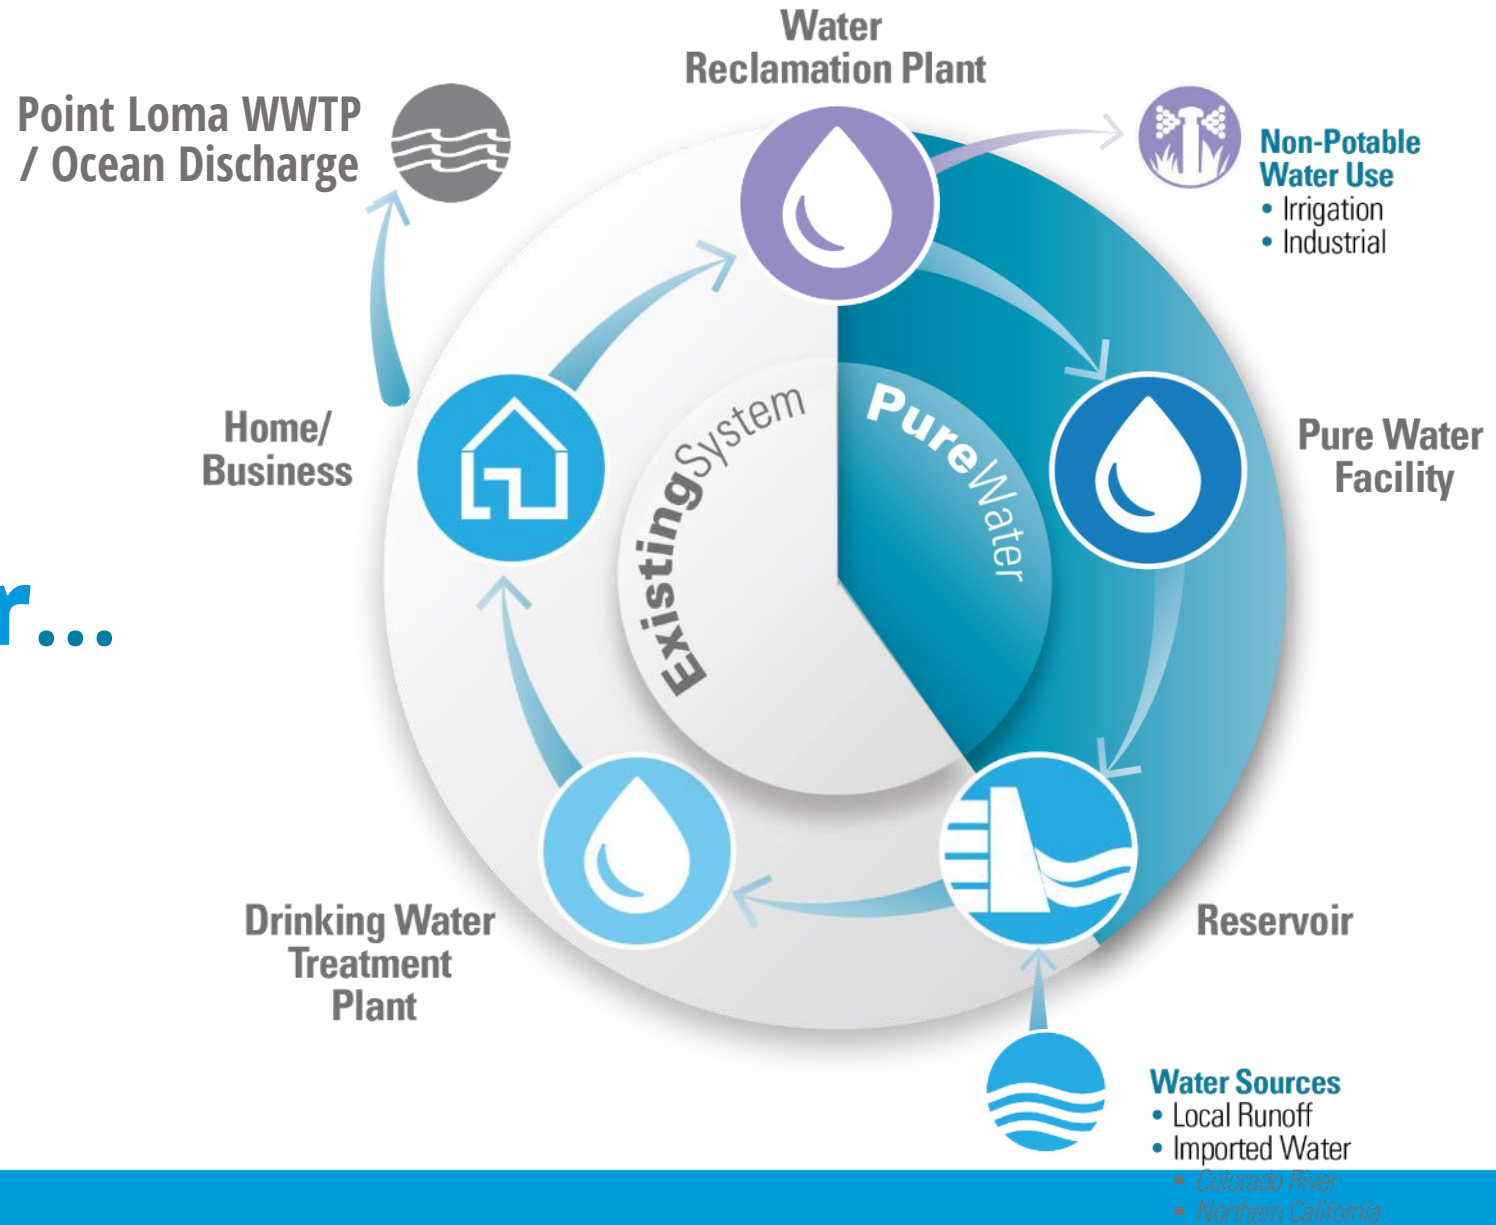

Existing System...

Primarily a Single-Use System

SD San Diego's Water Supply System

Pure Water... Completes Our Water Cycle

SD Pure Water Runs a Successful Demonstration Facility

- 50,000 lab tests: **Met all standards**
- Water quality: **Exceptional**
- Energy use: **Renewable**

This video will explain the water purification process that you will see on today's tour.

Pure Water
will produce
1/3
of your water
locally

Phase 1

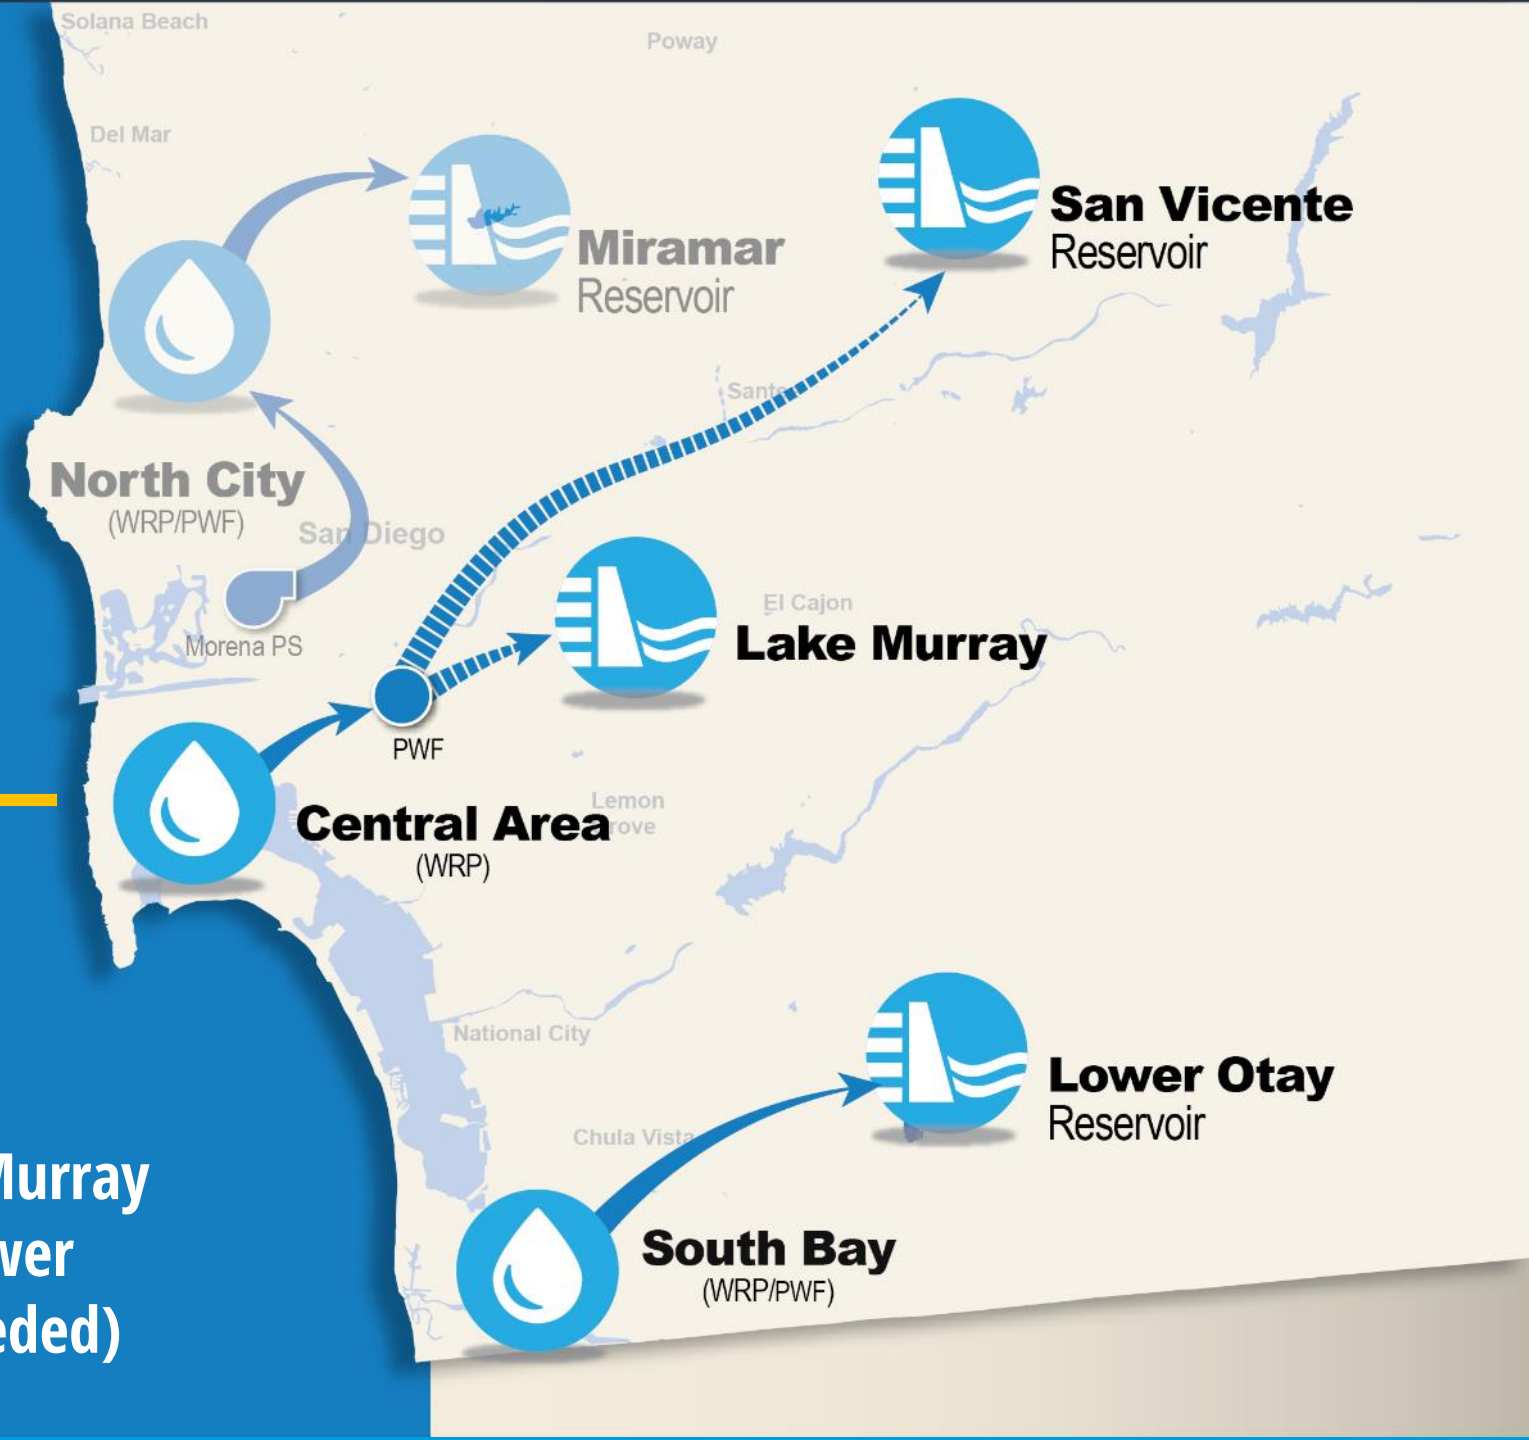

- 30 mgd
- North City PWF to Miramar

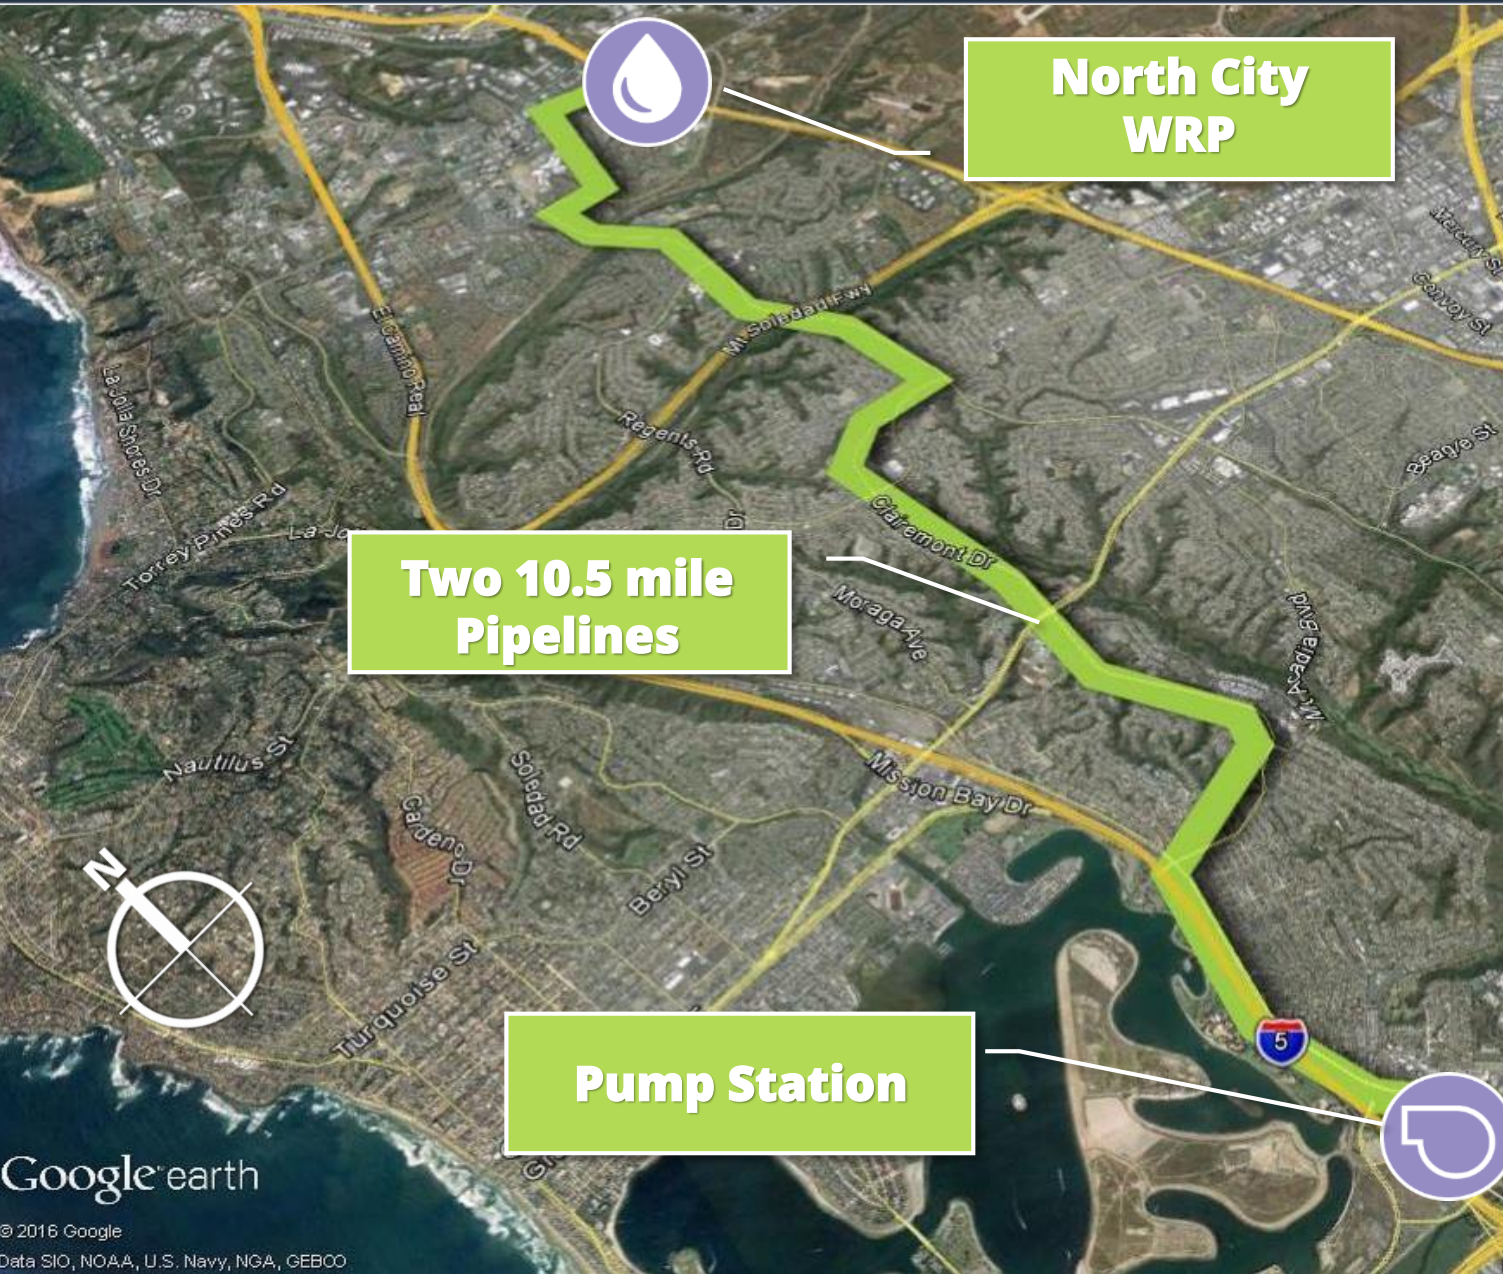

Pure Water
will produce
1/3
of your water
locally

Phases 2 & 3

- 2035 Completion
- 53 mgd
- Central Area PWF to San Vicente or Lake Murray
- South Bay PWF to Lower Otay Reservoir (if needed)

SD Morena Pump Station and Pipelines

- Conveys wastewater to North City Water Reclamation Plant (WRP)
- Supports Phase 1 purified water and recycled water production
- Trenchless construction will be used to avoid:
 - *environmentally sensitive areas*
 - *freeway crossings*

SD North City WRP Expansion

Pure Water
Facility

NCWRP

Morena Pipeline

- Treats wastewater to recycled water standards
- Expansion nearly doubles the amount of recycled water produced to meet needs of:
 - *Pure Water Facility*
 - *Recycled Water System*

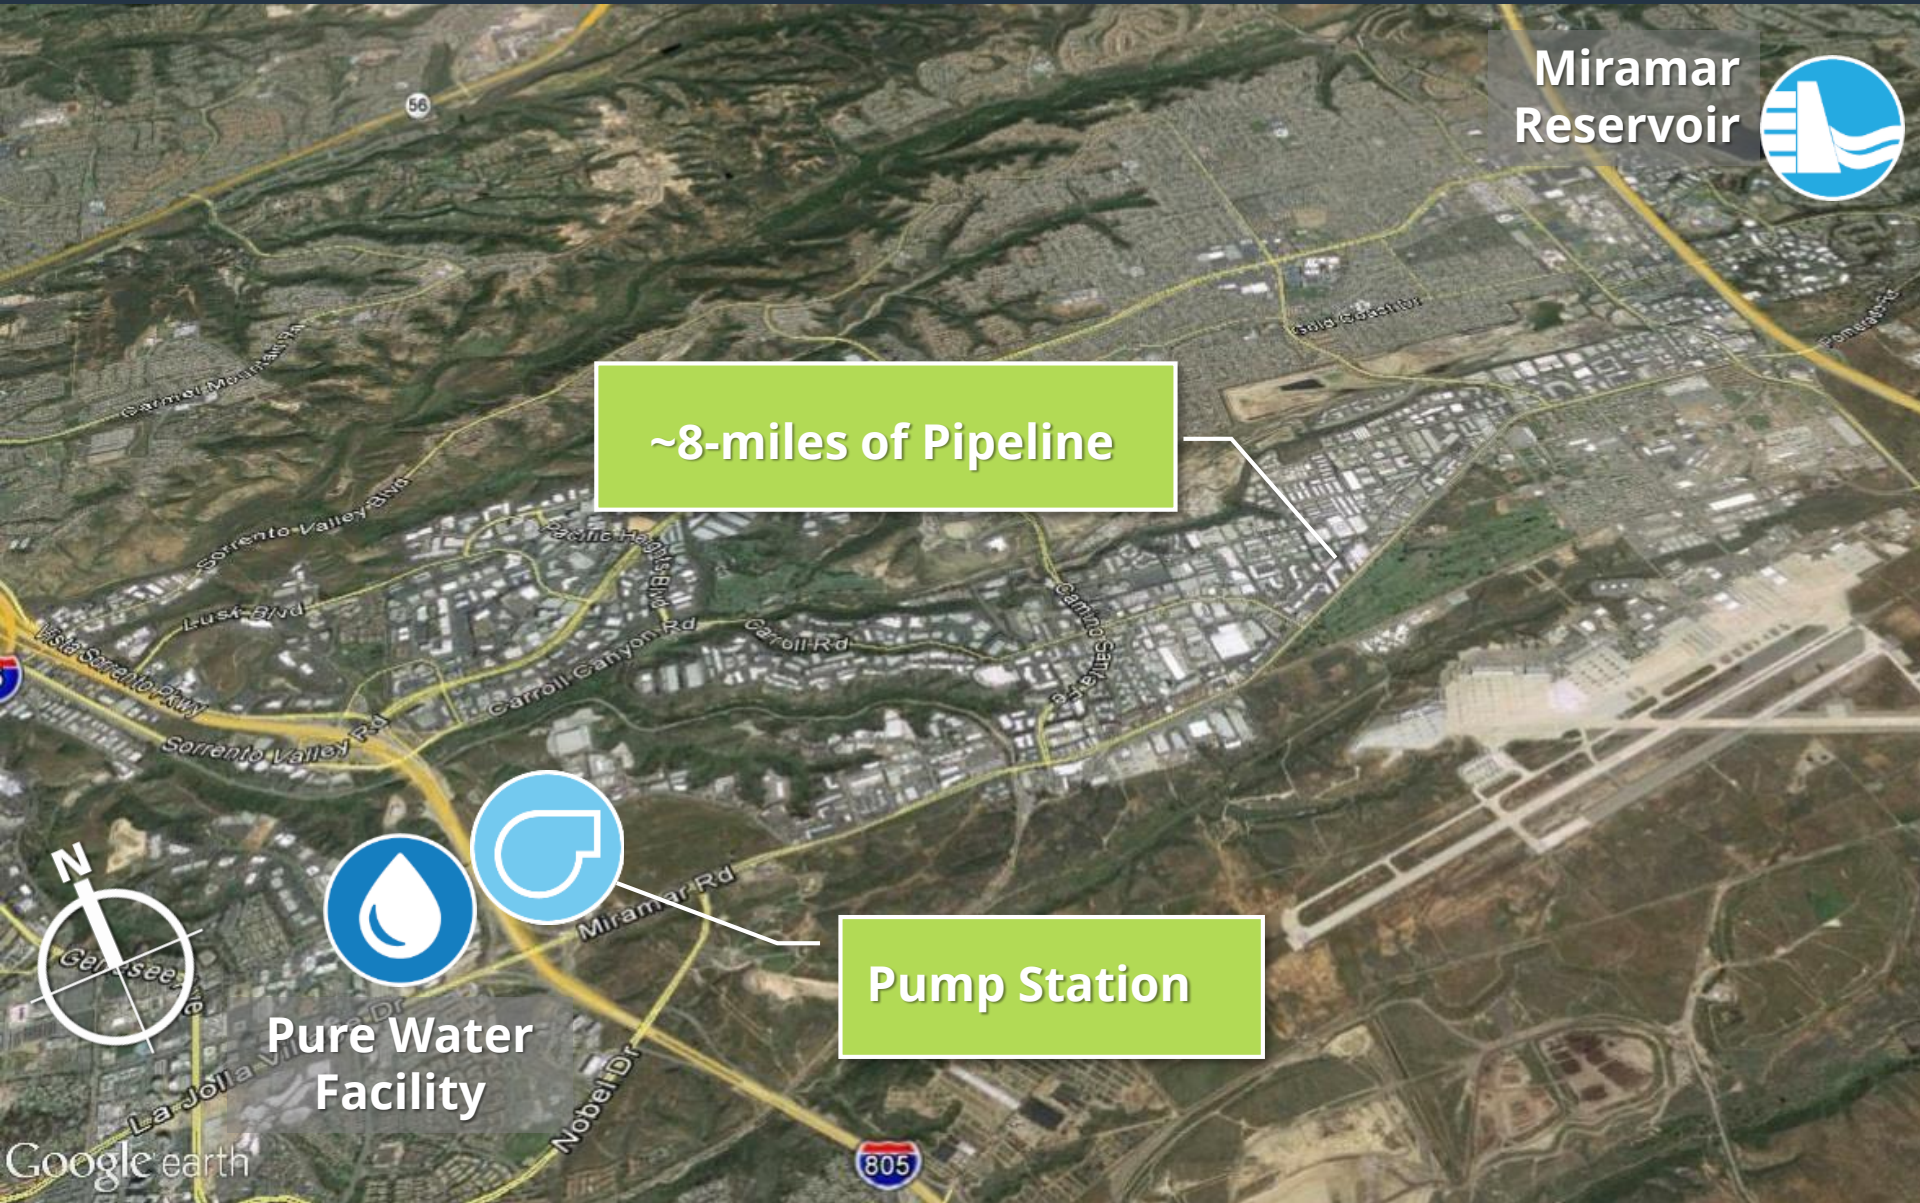

SD North City Pure Water Facility & Pump Station

- Treats recycled water to produce 30 mgd of purified water
- Includes a proven 5-step advanced water purification treatment process
- Construction Start: 2019

North City Pure Water Pipeline

Miramar Reservoir

~8-miles of Pipeline

Pump Station

Pure Water Facility

Pure Water to Miramar Reservoir via:

- Pump Station
- Pipeline

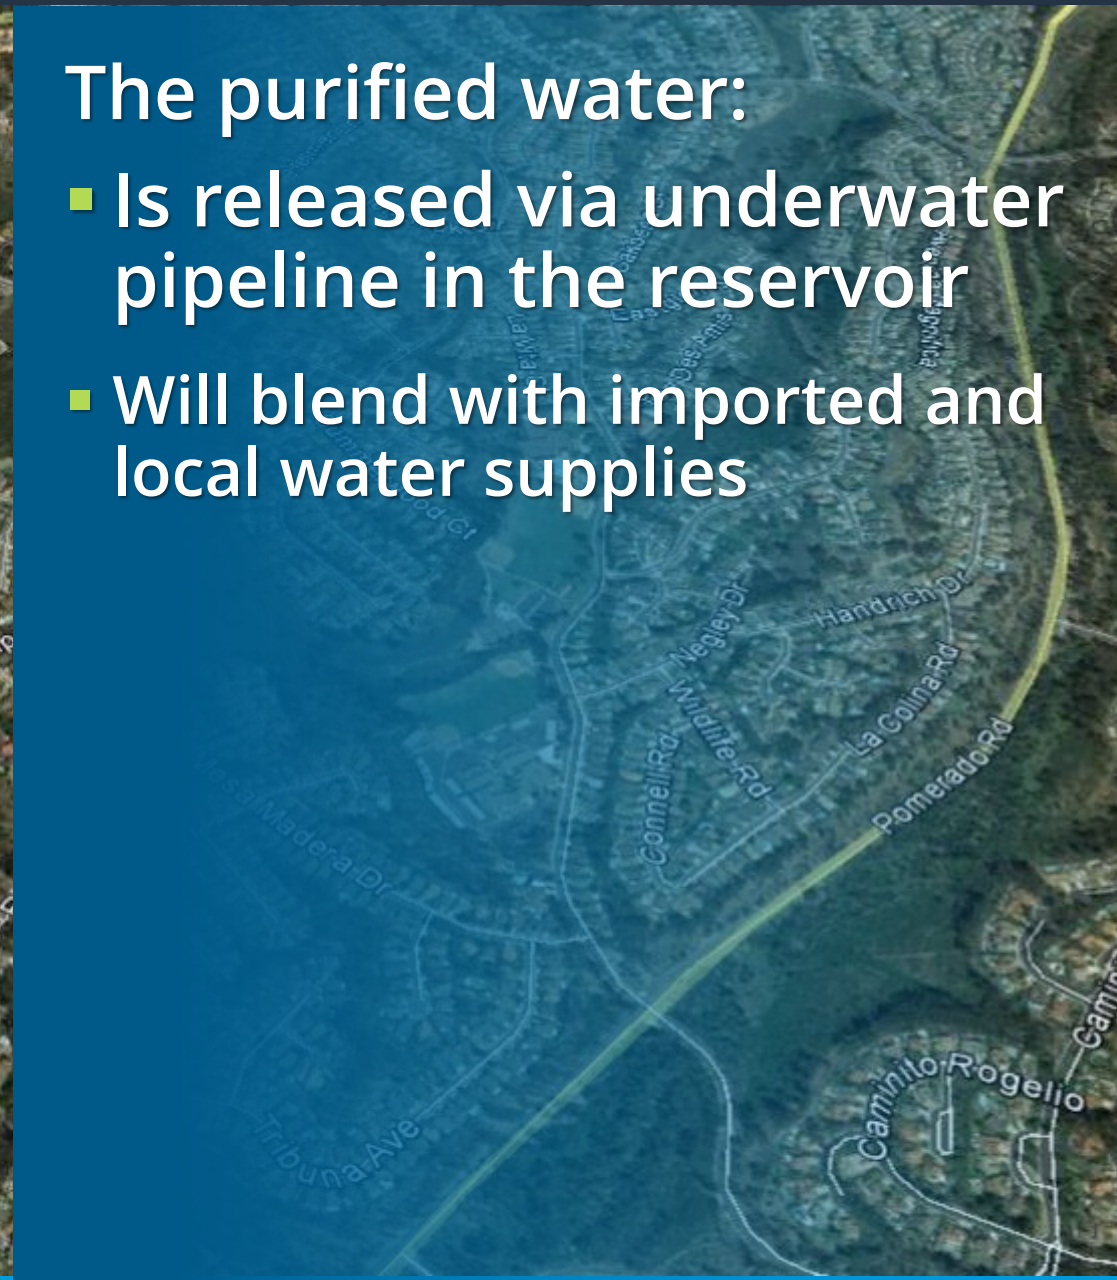

SD Miramar Reservoir

The purified water:

- Is released via underwater pipeline in the reservoir
- Will blend with imported and local water supplies

SD North City Renewable Energy

Pure Water

Renewable Energy

Miramar Landfill

Metro Biosolids Center

Produces Renewable Energy

- Supports GHG reduction
- ~16 MW
