SAN DIEGO POLICE DEPARTMENT  
CHIEF OF POLICE  
SHELLEY ZIMMERMAN

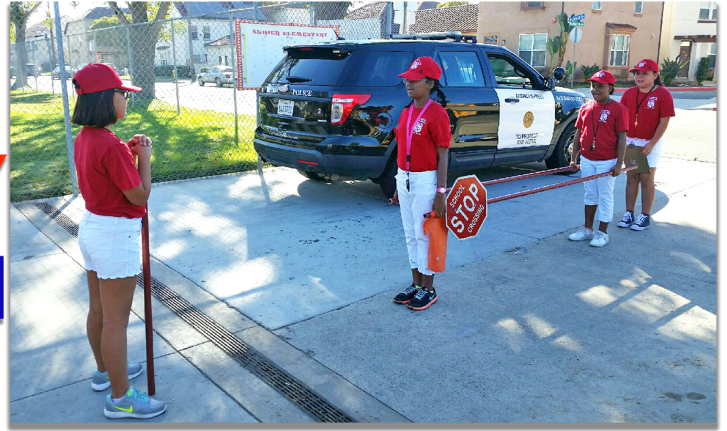

*As the Chief of Police for America's Finest City, I am pleased to present to you the San Diego Police Department's FY2018 first quarter Quarterly Community Policing Report. This report highlights the many ways we collaborate with our community to set the national model for community policing.*

*Public Safety is a shared responsibility between our police officers, professional civilian staff, volunteers and the community whom we so proudly serve. Community policing provides the greatest opportunity for keeping our streets safe. Our community partnerships are essential for designing and implementing crime prevention strategies and problem solving measures. It is the police and the community working together to address crime fighting and quality of life issues that fosters the highest level of public trust and safety. This working relationship has helped San Diego keep its reputation as one of the safest large cities in the United States.*

*I am extremely proud of the men and women of the San Diego Police Department for the tremendous work they do each day. I am equally proud of our great citizens here in San Diego. Together we are making a positive difference in our city. This report illustrates all the hard work and community involvement our officers do every day. From our neighborhood watch meetings to our community walks, we are committed to working together with our community to ensure San Diego remains America's Finest City.*

# INTRODUCING SDPD's SCHOOL SAFETY PATROL PROGRAM

*In February of 1935, the San Diego Police Department started developing a “School Safety Patrol” (SSP) program due to the high number of accidents involving elementary school children. In 1936, the program became fully operational. The initial School Safety Patrol consisted of one police officer supervising 12 boys who guarded one crossing location. Prior to this time, there were other School Patrols in operation, but their duties consisted of holding back pedestrians until there was a sufficient break in traffic for them to safely cross the street.*

*The San Diego Police Department was one of the first organizations to create a program which actually allowed student crossing guards to stop traffic so children could cross after appropriate legal requirements were enacted. Most safety experts were reluctant to give elementary school children the responsibility of stopping traffic to provide safer crossings. San Diego Police Department’s experience, over the past 82 years, has proved that the program is not only extremely cost effective but completely safe as well.*

*Students are recruited, selected and trained near the end of their 4th grade year by the San Diego Police Department and the officers of the Juvenile Service Teams. Currently the SSP operates nearly 100 crosswalks at 77 schools throughout the City of San Diego. The program consists of approximately 1,615 Elementary School students in the 5th and 6th grade.*

*SSP is responsible for the safe crossing of thousands of students and adults on a daily basis while walking to and from school. SSP squads consist of 3 to 6 person teams that work in the rain, heat, and cold without complaint controlling vehicle and pedestrian traffic. SSP members give up hundreds of hours before and after school in order to make their school and community a safer place.*

*These students are dedicated, confident and strong role models to their fellow classmates by setting an example of commitment, responsibility and safety. In addition to their time as crossing guards, the San Diego Police Department Juvenile Administration Unit organizes monthly events for the SSP members as incentives. These events include: San Diego Padres Baseball games, San Diego Gulls Hockey games, Trampoline Park trip, new release movie days, and a trip to Boomers Kid Park of San Diego where all SSP family and friends can attend.*

No police department is large enough to keep a community safe on its own. Effective crime prevention requires the active support of citizens and a partnership between police and the community. The San Diego Police Department is dedicated to developing, building, and maintaining community partnerships throughout the city. Our Community Policing efforts are the foundation of those partnerships.

We accomplish our community policing strategy in a variety of ways but most can be put into four categories:

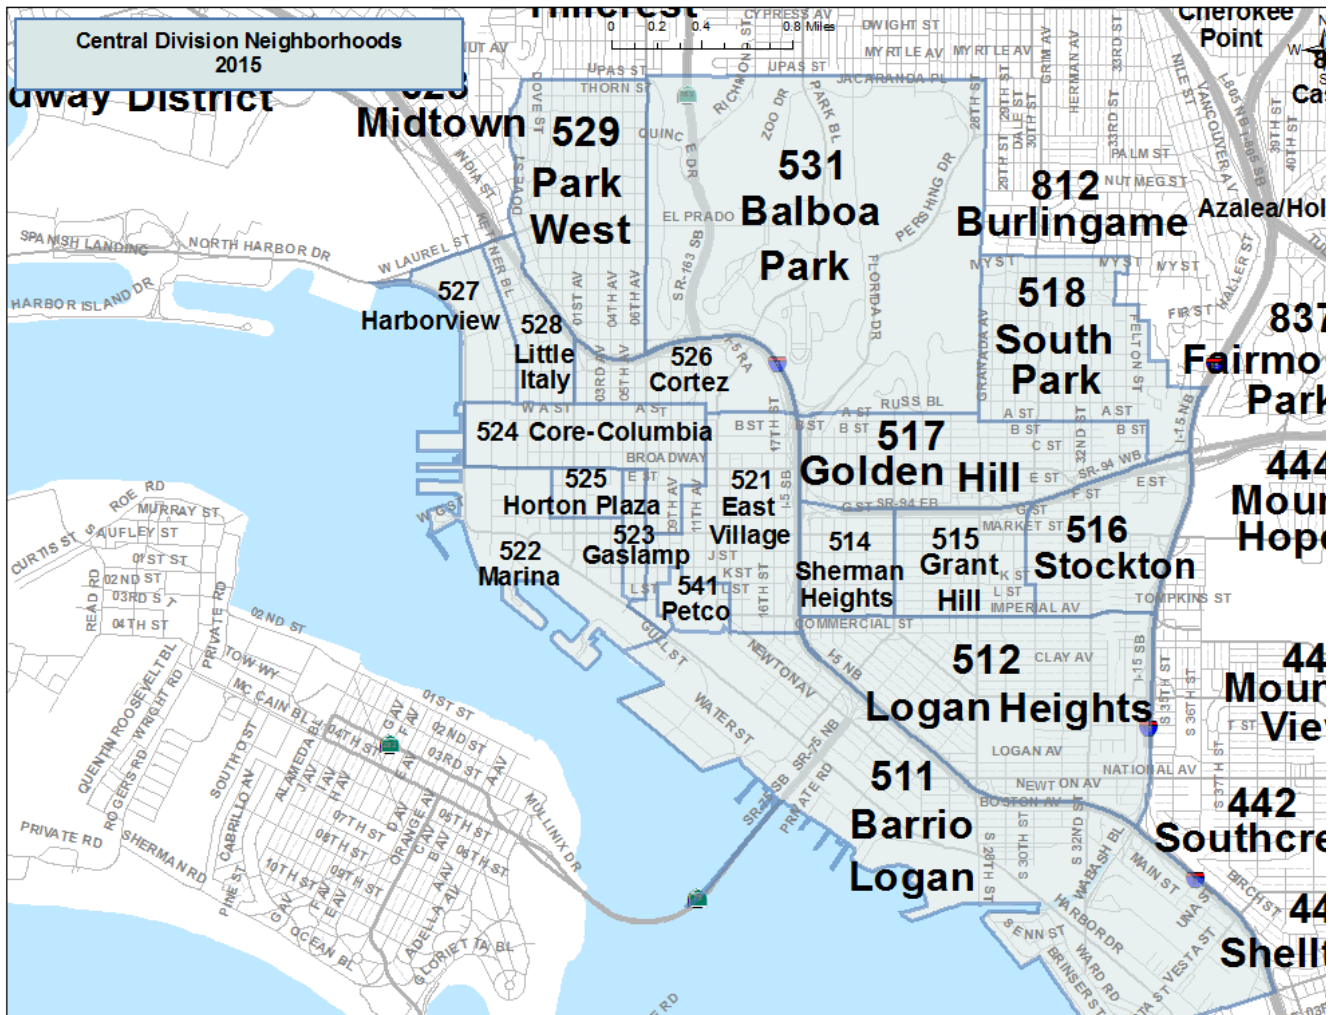

- I. **Community Partnerships** – The meetings we have to discuss public safety, crime statistics, and quality of life issues.
- II. **Community Involvement** – The events we participate in throughout the city to foster community relationships. Our ride-along program is an integral part of this.
- III. **Community Outreach** – The ways we provide awareness, education, and information to the community about public safety, crime trends, and crime prevention.
- IV. **Community Givebacks** – The volunteering and charity efforts we participate in inside and outside our normal work hours.

Below highlights many of the ways we have attended and/or participated in community events during the first quarter of FY18, July 1<sup>st</sup>, 2017 through September 31<sup>st</sup>, 2017:

I. <b>Community Partnerships:</b>	<b>478</b>
II. <b>Community Involvement :</b>	<b>330</b>

## **Community Involvement**

**Volunteer Services** – No police department is large enough to keep a community safe on its own. Effective crime prevention requires the active support of citizens and a partnership between police and the community. Community policing is an important foundation of the San Diego Police Department. What makes San Diego's approach to community policing unique is the extent to which the police department has made volunteers an integral component of its program.

The San Diego Police Department is viewed as a leading force in law enforcement innovations occurring across North America. The Department's adult and youth volunteer workforce has approximately 700 members. These volunteers play a vital role in the department's vision to engage the community in a problem solving partnership that will reduce crime and positively affect the quality of life in all communities.

The San Diego Police Department has used volunteers for a wide variety of job assignments for many years. Programs throughout the Department are considered models in volunteerism in the public sector. Volunteers are essential to Department operations. They help provide a level of customer service that could not be achieved by the Department's staff alone. Volunteers represent all segments of society. The variety of functions performed by this police department affords opportunities for people with varied interests and skills. The San Diego Police Department's Volunteers in Policing (VIP) program offers a unique opportunity for citizen volunteers to become actively involved in providing efficient, effective, and responsive service to our community.

The use of volunteers includes Crisis Interventionists, Retired Senior Volunteer Patrols, Volunteers in Policing, Reserve Officers, Police Cadets, and various support staff positions that enhance the organization's effectiveness. This is a result of two decades of change in policing philosophy that has heralded San Diego as a pioneer in many areas of law enforcement.

The San Diego Police Department has a significant resource available in the San Diego community: individuals who are ready, willing, and able to serve as volunteers. In a time of limited financial resources and increasing demands for services, it is important that volunteer opportunities continue to be identified and this resource increasingly utilized.

Currently, The San Diego Police Department has 108 active Crisis Interventionists, 306 RSVPs, 22 Reserve Officers, 75 VIPs, and 53 Cadets. Our Cadets contributed 410 hours this quarter. Our RSVPs contributed 27,444 hours this quarter. Crisis Interventionists responded to 140 callouts assisting 684 people, worked 3,133 hours, and were on call and prepared to respond for an additional 2,801 hours; our Reserve Officers worked a total of 1,396.5 hours and our VIPs contributed 2,941.5 hours.

**Ride Along Program (161)** – The Ride Along Program is a powerful community involvement tool that enables an officer to showcase to citizens who live, work, or go to school in the officer's area of responsibility the daily duties of a police officer. It enables citizens to get a first-hand look at policing and to better understand the role of the police. It increases the opportunity for more effective problem solving, and it enhances mutual understanding and cooperation and leads to an improved police/community relationship.
