RE: Support for Community Choice Energy (CCE)

Dear Mayor Faulconer and Council,

Thank you for taking a leading role in addressing climate change and moving our city toward a 100% clean energy future. Raise Progress strongly supports the City's decision to move forward with Community Choice Energy.

Community Choice Energy is essential for achieving our Climate Action Plan goals. Community Choice gives San Diegans local control over our energy future, helps stabilize or reduce our rates, and provides us with the freedom to choose the source of our electricity.

We are particularly interested in the opportunity for a local community choice program to buy increasing amounts of power from local sources, supporting local jobs and local economic development. We believe the city should join California's 9 counties and 65 cities in the movement for clean energy, clean jobs, and local choice through Community Choice Energy. Thank you for supporting the freedom of energy choice for San Diego. We look forward to partnering with you on creating a stronger, more resilient clean energy future.

Sincerely,

Rosalie Bloomberg-Rissman
