RE: Community Choice Energy (CCE)

Dear Mayor Faulconer and Council Members,

The Rancho Bernardo Community Council had an opportunity to review information pertaining to the proposed Community Choice Energy not only via a public forum, but also through various documents on the subject. Moving towards clean energy is a goal of the City. Goals in the City's Climate Action Plan include utilizing renewable sources, help create new jobs in the renewable energy industry, increase clean energy production, improve quality of life and save taxpayer money. Community Choice Energy is one of the key strategies for achieving the City's Climate Action Plan goals. Community Choice Energy offers residents choices in their energy use and the source of that usage.

As such, the Rancho Bernardo Community Council supports the opportunity for a local community choice programs to buy increasing amounts of power from local sources, supporting local jobs and local economic development. The Rancho Bernardo Community Council voted 17-0-0 in support of Community Choice Energy.

We would appreciate your support in the growing movement in our state to move towards clean energy, clean jobs, and local choice through Community Choice Energy.

Thank you for supporting the freedom of energy choice for San Diego.

Sincerely,

Robin Kaufman
