Miss Florence Chambers,
Mission Beach, California

Dear Miss Chambers:

This letter is written to you in behalf of the San Diego Surfboard Club, a newly organized group of thirty surfboard enthusiasts. We have been organized about a year and already have our own clubhouse at Pacific Beach.

Our club is very much interested in having the Mission Beach Plunge re-opened to the public and we understand that you are very active in the movement to have the Plunge re-opened. If there is anything that we can do, as individuals or as an organization, to help in this movement, please let us know.

We want to use the plunge for surfboard polo. We had a few games in the plunge before it closed and we had planned to work up teams for competition with teams from Los Angeles clubs. They had promised us games and we were certainly disappointed to have the Plunge closed to us. Many people have asked when we are to have more games, as they did enjoy the sport when we practiced.

We guarantee the fullest cooperation possible in supporting the Plunge, and we will put on exhibitions if desired.

Please use this letter in any way you see fit in your efforts to get the Plunge open again.

Very truly yours,
San Diego Surfboard Club,

by
William F. Hein
