

District Deviations Based on 2020 'Legacy Format' Census Data (PRELIMINARY ANALYSIS)

The following table is based on the 2020 Census legacy format redistricting file released on August 12. Please note that the file download differed slightly from the official San Diego population total of 1,386,932 released by the Census. This will be rectified when the user-friendly format is released at the end of the month. The figures below are closer to the official total than the 2019 SANDAG estimate of 1,420,568, and broadly indicate the deviations likely.
