Creating a na	Goal 6: Promote Health and Access to Healthcare Athway from poverty to promise to prosperity through the creation of safe and healthy places that
	ventive health care, engage residents, and continue to promote a culture that values health, safety, an
connected ne	
Activity 6A	Build resident capacity and leadership through the creation of a healthy and accessible food system
	that can be seen and experienced in a transformed built environment. Reduce rates of chronic
	disease by leveraging AB551 to grow urban farming.
Rationale/Ev	<u>vidence</u>
The Account	able Health Communities (ACH) model explains that the creation of healthy spaces and places is in fact
a form of pre	eventative healthcare. The AHC model tell us that unmet health-related social needs, such as food
insecurity an	d lack of safety, may increase the risk of developing chronic conditions, and lead to avoidable health
care utilizatio	on. Green and vibrant communities offer a holistic approach to healthcare through active, safe, and
thriving neig	hborhoods.
Implementir	ng Partners
HHSA will su	pport a community engagement project in the SDPZ to advance city policies that improve access to
healthy food	and advance local infrastructure changes to promote urban gardening using Live Well San Diego visio
Utilize RLA c	urriculum to create resident leaders in each community who work with institutions to encourage healt
eating.	
City of SD En	vironmental Services Dept will support development of urban gardens.
SDUSD will p	romote community gardens to students and families.
Committed I	Financial Support
Grant or Dire	ect Allocation
Resilivin adv Spe and env plar base • Fed staf eng app	support the development a community engagement project in Southeastern San Diego using the ident Leadership Academy (RLA) model to advance city policies that improve active g/transportation and access to healthy food, particularly benefitting communities of need, and to ance local infrastructure changes that improve the walkability/bikeability of Southeastern San Diego. cifically, the NEOP program will fund a community-based organization to lead this project by engaging organizing residents, building partnerships and engaging other community partners in the policy and ironmental change effort, and building sustainable relationships and working closely with city staff to and bring about the changes. The County of San Diego HHSA plans to contract with a community ed organization for approximately \$80,000/year in the Promise Zone to support resident engagement for provide technical assistance to the community in their implementation of this community agement project. In addition to technical assistance from County staff and existing contractors, roximately \$80,000 (over three years) worth of services from an active transportation consultant will available within the Promise Zone.
Financial Sur	oport Needed
Grant or Dire	ect Allocation
• \$45	0,000, California Department of Food and Agriculture, 10/01/2016-03/31/2019, 2016 Specialty Crop
aske imp	ck Grant Program from the California Department of Food and Agriculture: The County of San Diego w ed to submit a Phase II application to support a county-wide project to increase market potential for erfect produce. While the focus is county-wide, food system work within the Promise Zone will be
-	ported to link residents to affordable produce. The requested budget over three years is approximate 0,000.

Committed Non-Financial Support

• In-kind from HHSA (via staff time) under the Nutrition Education and Obesity Prevention Program (NEOP),

	for federal fiscal year 2017-2019 in Southeastern San Diego.
•	In-kind support from the City of San Diego to work with property owners to participate in AB551.
٠	In-kind from Supporting Partner Second Chance (via staff time) to teach elements of the Second Chance
	Youth Garden program that combines in class and experiential learning in order to increase youth
	awareness of urban agriculture and food justice.
Expecte	d Outcomes and Measurement
•	Increase the availability of and access to healthy food in the zone to promote a healthy diet and decrease chronic disease by creating at least one community garden in each SDPZ neighborhood.
•	Increase access to fresh produce for all residents within the SDPZ by creating 6 new access points to fresh
	produce (e.g., CSA drop-off, community garden, retails).
•	At least 24 RLA participants become resident leaders with increased knowledge of nutrition and health promotion in the next 3 years.
Data Co	llection, Tracking and Sharing
•	HHSA and City will track the number of RLA graduates, number of community gardens built in the zone, number of parcels enrolled in AB551, and number of outlets selling fresh produce and report back to the committee.
•	San Diego Unified School District will report the number of outreach and education activities conducted in the SDPZ and report back to the committee.
Timelin	e/Milestones for Implementation
•	Develop short term (2016-2018), intermediate (2019-2021) and long term goals (2022-2026) and metrics by July 2017
٠	In 2016, work with Community Planning Groups in each neighborhood to garner resident support for the
	SDPZ activities
• •	In 2017, map number of potential parcels to be used for community gardens Launch RLA within the SDPZ by 2016
Activity	6B Champion practices & policies that promote a healthy food system (e.g., land use policies for
	healthy retail/urban agriculture/active transportation). Utilize City CIP & other local initiatives to
	prioritize infrastructure spending within the zone.
Rationa	prioritize infrastructure spending within the zone.

Financial Support Needed

Grant or Direct Allocation

 \$450,000, 10/01/2016-03/31/2019, 2016 Specialty Crop Block Grant Program from the California Department of Food and Agriculture: The County of San Diego was asked to submit a Phase II application to support a county-wide project to increase market potential for imperfect produce. While the focus is county-wide, food system work within the Promise Zone will be supported to link residents to affordable produce. The requested budget over three years is approximately \$450,000.

Committed Non-Financial Support

HHSA will provide public health staff to provide technical assistance to the community in their implementation of this community engagement project, Convening and hosting meetings related to shared use agreements, ongoing, SDPZ partners, residents and nonprofits in the SDPZ.

Non-Financial Support Needed

Prioritization of the City's Capital Improvement Projects (CIP) in the SDPZ that are calendared for completion between 2016 and 2021. Types of CIP include street light installation, upgrades to existing parks, street upgrades to include traffic calming measures - medians, bulb-outs and curb extensions, wider sidewalks, dedicated bike lanes, etc., in-kind support, ongoing, SDPZ partners, residents and nonprofits in the SDPZ.

Expected Outcomes and Measurement o

- Number of policies passed by Council; number of projects prioritized for implementation
- Food System Working Group will touch on all aspects of the system report and food system map; stories of the food group so that SDPD can show up Creating of a State of the Food System report; six new health retail outlets per neighborhood

Data Collection, Tracking and Sharing

- HHSA will collect, analyze and share data at the SDPZ Health and Wellness subcommittee and at the SDPZ quarterly Executive Meetings.
- o Hospital Association of San Diego Hospital and Imperial County community health needs assessment (data comes from county and census)

Timeline/Milestones for Implementation

- Develop short term (2016-2018), intermediate (2019-2021) and long term goals (2022-2026) and metrics
- Launch RLA within the SDPZ by 2016
- Work with Community Planning Groups
- Food System report- Outreach to stakeholders in 2016 and draft report outline in 2017 CIP Milestones.

Activity 6C Improve residents' health through access to healthcare insurance. Outreach and Enrollment coordinators will distribute information and offer free application assistance in health clinics located in the SDPZ.

Rationale/Evidence

People need access to convenient and affordable healthcare to ensure that their health needs are met. Despite the Affordable Care Act (ACA), many SDPZ residents remain uninsured due to multiple barriers such as language, immigration status fears, lack of computer access, lack of transportation and more. In the SDPZ, 27% of SDPZ residents remain uninsured lack of compared to 14% in the City overall.

Implementing Partners

The City of San Diego will work closely with supporting partner Family Health Centers of San Diego (FHCSD) to obtain and analyze data related to the uninsured and leverage the extensive outreach and enrollment operations of FHCSD to conduct targeted, resident-centered outreach and health insurance application assistance within the SDPZ. Additionally, the City of San Diego/FHCSD public/private partnership will use available data and resident input to address other healthcare access barriers.

Committed Financial Support

Grant or Direct Allocation

- Federal Government: \$430,604, 07/01/2016-12/31/2016, Health Resources and Services Administration Outreach and Enrollment Grant
- Regional/National Nonprofit or Foundation: \$50,000, 07/01/2016-06/30/2017, National Council on Aging
 Financial Support Needed

Grant or Direct Allocation

- \$3,875,436, Health Resources and Services Administration Outreach and Enrollment Grant, 07/01/2017-06/30/2026
- \$469,743, Centers for Medicare/Medicaid, 07/01/2017-06/30/2019

• \$1,125,000, Covered California, 12/31/2016-06/30/2026

Expected Outcomes and Measurement

Assist 8,200 people in the SDPZ apply and renew their health insurance annually.

Successfully enroll 6,550 people in health insurance annually.

Data Collection, Tracking and Sharing

FHCSD will capture data related to number of application assistance sessions provided and the number of successful enrollments achieved as a result. Supporting partners will frequently report milestones to the SDPZ Health and Wellness subcommittee.

Timeline/Milestones for Implementation

Within the 10 year designation, we expect to assist 82,000 people and enroll 65,500 people.
