Mayor & City Council

San Diego Calif.

Gentlemen;

Several months ago you sent in a resolution to Governor Warren in regards to a pension for the physically handicapped citizen of Calif. to be put on their special session. Well we failed to get on any session and so are putting all our efforts on this 1945 session.

I have already seen two proposed bills that will be presented then and I imagine several more will be presented, but whichever one gets thru, we will be very grateful. These bills are about the same as the Aged & Blind have as to requirements.

We will appreciate more than words can tell if you gentlemen will send in another resolution to the Governor and to the Senator and Assemblymen in your district

This is such a worthy cause and is needed badly.

We will have one or two of our members at Sacramento to try and get a bill thru.

What ever action you take may I have a copy, but I feel sure you men are behind such a good cause.

Hoping to get a reply soon, I remain

Most Sincerely,  
*Mrs Queenie Melville*  
Mrs Queenie Melville
