Debt Obligations

CITY OF SAN DIEGO

ADOPTED BUDGET

MAYOR KEVIN L. FAULCONER

Debt Obligations

Under the direction of the Chief Financial Officer, with attention to current economic and municipal bond market conditions and funding needs, the City executes debt instruments, administers debt proceeds, manages ongoing disclosure and debt compliance, and makes timely debt service payments. Reliance on short term and long term financing instruments can facilitate better allocation of resources and increased financial flexibility and represents an important component of the City's Five-Year Financial Outlook for the General Fund and the Public Utilities Department's capital planning for meeting the City's infrastructure needs.

Lease Revenue Bonds are lease obligations secured by a lease-back arrangement with a public entity, where the general operating revenues are pledged to pay the lease payments, and in turn are used to pay debt service on the bonds. These obligations do not constitute indebtedness under the State constitutional debt limitation, and are not subject to voter approval. Payments to be made under valid financing leases are payable only in the year in which use and occupancy of the leased property is available, and lease payments may not be accelerated. The governmental lessee is obligated to place in its annual budget the rentals that are due and payable during each fiscal year the lessee has use of the leased property.

¹ Does not reflect debt obligations of City Agencies (including City as the Successor Agency to the Redevelopment Agency), Community Facilities Districts or Special Assessment Districts.

Debt Obligations

Revenue Bonds are obligations payable from revenues generated by an enterprise, such as water or wastewater utilities, public golf courses or parking facilities. The City's outstanding utility Revenue Bonds are payable solely from the City's Water or Wastewater Enterprise Funds and are not secured by any pledge of ad valorem taxes or General Fund revenues by the City.

Table 1 summarizes the City's outstanding long-term bond obligations as of June 30, 2016, and the projected bond debt/lease payment for each outstanding issuance for Fiscal Year 2017.

¹ Full lease payment. Does not include estimated \$320,000 in federal subsidy to off-set the lease payment.

² In addition to bonds, the Water and Wastewater Systems have outstanding State Revolving Fund (SRF) loan obligations. The Water System SRF loans have a projected outstanding principal loan balance as of June 30, 2016 of approximately \$59.1 million. The Wastewater System SRF loans have a projected outstanding principal loan balance as of June 30, 2016 of approximately \$126.0 million.

The City's **Equipment and Vehicle Financing Program** provides a mechanism for the lease purchase of essential equipment in addition to pay-as-you-go funding. The terms of the lease purchases are typically over a three-year to ten-year term and based on useful life expectancy of the equipment. The outstanding principal for various lease purchase obligations is approximately \$42.7 million on June 30, 2016. These purchases span various lease terms and cover a variety of essential purpose assets. Examples include: fire trucks, refuse packers, service trucks, IT Projects and Equipment, Automated Water Meter Infrastructure, GPS equipment, fire and police helicopters, and the City's Enterprise Resource Planning System.

State Revolving Fund (SRF) Loans is a low interest loan program for the construction of water and wastewater infrastructure projects and the program is managed by the State. Compared to traditional bond financings, the interest rates for SRF loans are lower and also have shorter repayment terms. The Public Utilities Department utilizes the SRF loan program to fund capital improvements in addition to traditional tax-exempt bond offerings.

Under various provisions of State law, the City has established several **Special Assessment and Community Facilities (Mello-Roos) Districts**. There are currently two Special Assessment Districts and four Community Facilities Districts established by the City with outstanding debt. The districts or the City, acting as a conduit issuer, have issued limited obligation bonds to finance infrastructure facilities and other public improvements necessary to facilitate development of the properties within each district. The bonds are secured solely by the properties in the district and are repaid through revenues generated by the annual levy of special assessments or special taxes on the properties. The outstanding principal amounts as of June 30, 2016 are \$5.3 million for Special Assessment Districts and \$99.4 million for Community Facilities Districts. These bonds are not fiscal obligations of the City. Additional information about these districts and the associated special taxes
