2016 Citywide Facilities Condition Assessment Update

This week, the Public Works and Engineering Department presented the **2016 Facilities Condition Assessment Update** to City Council. The report provided updates on the conditions of city-occupied facilities such as libraries, recreation centers, fire stations and police stations. The results show that of the 560 buildings assessed, over 40% were considered to be in poor condition and in need of improvements such as roofing, plumbing, and electrical.

In District 4, the **Oak Park Library**, the **Paradise Hills Recreation Center**, and the **George Stevens Senior Center** were rated highly. However, public facilities such as the **Valencia Park/Malcolm X Library** and the **Paradise Hills Library** are among those in poor condition and in need of extensive repairs.

The Future of Public Facilities

The Facilities Condition Assessment Update requires a minimum condition level for each building, rather than a simple average which is key to addressing the improvements needed at the facilities. With this information, the Public Works Department and I can work to ensure that public facilities in District 4 and throughout the city receive the repairs and maintenance needed to provide safe, quality facilities for the public's use.
